Five Dimensions of Quality Linda Suskie, 2014-08-22 Meet calls for increased quality and understand accreditation expectations. Author Linda Suskie is internationally recognized for her work in higher education assessment and she is a former vice president of a major regional accreditor. In Five Dimensions of Quality: A Common Sense Guide to Accreditation and Accountability in Higher Education, she provides a simple, straightforward model for understanding and meeting the calls for increased quality in higher education ever present in today's culture. Whether your institution is seeking accreditation or not, the five dimensions she outlines will help you to identify ways to improve institutional quality and demonstrate that quality to constituents. For those wading through the accreditation process, which has become more difficult in recent years due to increasing regulation and pressure for greater accountability, Suskie offers expert guidance on understanding the underlying principles of the expectations of accrediting bodies. Using the model presented here, which is much easier to understand than the sometimes complex resources provided by individual accrediting bodies, American
