Building Construction Sushil Kumar:

Building Construction Sushil Kumar, 2001 **Managing Safety: Challenges Ahead (in 2 Volumes)** Pradeep Chaturvedi (ed.), 2005 **Basics of Civil Engineering** Dr. Mukul Burghate, Engineering has been an aspect of life since the beginnings of human existence The earliest practice of civil engineering may have commenced between 4000 and 2000 BC in ancient Egypt the Indus Valley civilization and Mesopotamia ancient Iraq when humans started to abandon a nomadic existence creating a need for the construction of shelter During this time transportation became increasingly important leading to the development of the wheel and sailing Civil engineering is the application of physical and scientific principles for solving the problems of society and its history is intricately linked to advances in the understanding of physics and mathematics throughout history Because civil engineering is a broad profession including several specialized sub disciplines its history is linked to knowledge of structures materials science geography geology soils hydrology environmental science mechanics project management and other fields Throughout ancient and medieval history most architectural design and construction was carried out by artisans such as stonemasons and carpenters rising to the role of master builder Knowledge was retained in guilds and seldom supplanted by advances Structures roads and infrastructure that existed were repetitive and increases in scale were incremental The purpose of this textbook is to present an introduction to the subject of Basics of Civil Engineering of Bachelor of Engineering BE Semester I The book contains the syllabus from basics of the subjects going into the intricacies of the subjects Students are now required to solve minimum Four 4 Assignments based on the Syllabus Each topic is followed by Assignment Questions which now forms the compulsory part of internal assessment All the concepts have been explained with relevant examples and diagrams to make it interesting for the readers An attempt is made here by the experts of TMC to assist the students by way of providing Study text as per the curriculum with non commercial considerations We owe to many websites and their free contents we would like to specially acknowledge contents of website www.wikipedia.com and various authors whose writings formed the basis for this book We acknowledge our thanks to them At the end we would like to say that there is always a room for improvement in whatever we do We would appreciate any suggestions regarding this study material from the readers so that the contents can be made more interesting and meaningful Readers can email their queries and doubts to tmcnagpur@gmail.com We shall be glad to help you immediately Dr Mukul Burghate Author **Building Construction** S. Kumar, 2010 **The Healthy Office** R.M. Mehra, 2009 Made from the elements and crafted by Nature over millennia Man is a highly complex vertebrate that needs food water air sunlight and shelter from the vagaries of the weather in order to survive He is also prey to a host of malignant influences from the surroundings he chooses to live and work in As architecture medicine and other fields of science have evolved over the centuries greater light has been shed on the myriad forces good and bad discernible and indiscernible that act on him some of which are positively harmful to his mental and physical health Modern man spends a large portion of his life indoors so

buildings with bad ventilation poorly designed furniture and inadequate sunlight adversely affect his mind and body crippling his efficiency Moreover several invisible but highly injurious sources such as toxic vapours and magnetic lines of force also take their toll on his health Ancient civilizations gave prime importance to these factors and many of their neglected techniques such as directionology are being revived today This absorbing book takes a holistic overview of Man s relationship to his surroundings and contains many a vital clue on how to avert the ill effects of poor surroundings No architect interior designer building contractor home owner or employer can afford to miss its crucial message A Textbook of Building Construction D. R. Singla,Sushil Kumar,1979 Advances in Construction Management Anil Kashyap,Rajesh Goyal,Rita Yi Man Li,Gangadhar Mahesh,M. D. Deepak,2025-04-30 This book presents the select proceedings of the 7th International Conference on Construction Real Estate Infrastructure and Project Management ICCRIP 2023 and explores recent and innovative developments in all aspects of the CRIP sector The book covers various issues in construction management advancements in construction technologies and materials sustainable construction practices managerial issues in the CRIP sector construction 4 0 project management real estate and urban planning energy environment and sustainability The book will be useful for researchers and professionals involved in construction management civil engineering and related fields

Standards India ,1987 *Books from India* ,1975 *Indian Books in Print* ,2000 **Global Climate Change** Bob Frame,Yaj Medury,Yateendra Joshi,1992 **Sustainable Development of Smart Cities Infrastructure (SDSCI-2023) (Volume-1)** H.K. Sharma,Arun Goel,Pankaj Munjal,2023-05-25 Sustainable development of smart cities infrastructures is of paramount importance and need to be planned designed constructed operated and de commissioned in a manner that ensures economic social environmental and institutional sustainability over the entire infrastructure life cycle Smart cities infrastructure however be cost effective disaster resilient environmentally friendly conserving natural resources and sustainable ensuring faster delivery of quality and durable structures which include roads building bridges energy and water infrastructures Government of India is going to encourage Public Private Partnership PPP as an alternate option to build most of the infrastructures which can be useful both for green field as well as brown field smart cities projects The present book is a collection of contributed research and review papers presented at the National Conference on Sustainable Development of Smart Cities Infrastructure SDSCI 2023 held at National Institute of Technology Kurukshetra in May 2023 The subject matter is grouped into nine sessions which include research articles pertaining to sustainable development of smart cities urban and rural planning transportation built environment and management sustainable and smart technologies materials construction and maintenance advance modelling characterization of structures energy and environment performance of smart cities infrastructure under extreme loading conditions green buildings structural health monitoring and ICT in smart cities data mining and machine learning for sustainable infrastructure GIS and remote sensing future trends and prospects of smart cities innovative technologies building energy and efficiency and sobriety and sustainable
