Mood Regulation And Emotional Intelligence Individual:

Emotion Regulation Ivan Nyklíček, Ad Vingerhoets, Marcel Zeelenberg, 2007-10-23 An increasing number of studies have been conducted on the role of expression and regulation of emotion in health. Emotion Regulation addresses the question of these studies from diverse angles while encompassing conceptual, developmental, and clinical issues. Central concepts discussed in this volume that are related to health include coping styles and aggression, alexithymia, emotional intelligence, emotional expression, and depression, emotional expression and anxiety disorders, in addition to the emotional competence in children.

The ^AOxford Handbook of Stress and Mental Health Kate L. Harkness, Elizabeth P. Hayden, 2019-12-17 Due to the ubiquity of stress in mental health problems, students, clinicians, and scientists in relevant fields require a broad understanding of stress, assessment of the factors that influence how impactful a given stressor is on an individual, how the role of stress varies across different disorders, and treatments for stress-related problems. This handbook provides an in-depth, comprehensive overview of these key issues in the field of stress and mental health through chapters written by a diverse group of internationally acclaimed experts who are concerned with understanding how stress impacts mental health.

The Psychology of Individual Differences: Cognition, emotion and conation Gregory John Boyle, Donald H. Saklofske, 2004 A comprehensive up-to-date and international synthesis of some of the most significant publications in the psychology of individual differences over the past two decades, including highly cited empirical articles, critical review articles, and key book chapters that have influenced debates in the field.

Handbook of Conflict Management Research Oluremi B. Ayoko, Neal M. Ashkanasy, Karen A. Jehn, 2014-07-31 This unique book draws together current thoughts and research in conflict management. Specifically, it brings a wealth of knowledge from authorities in the field on emerging issues such as power in conflict, cognition, and emotions in conflict leading.

Emotion Regulation in Couples and Families Douglas K. Snyder, Jeffrey A. Simpson, Jan N. Hughes, 2006 This is an edited book that addresses critical theoretical and methodological issues in the rapidly advancing field of emotion regulation. It presents empirical findings linking emotion regulation to individual and relationship functioning across the life span while providing implications for clinical intervention, public policy, and future research. Contributors who are nationally and internationally recognized for their expertise in social, developmental, and clinical disciplines offer diverse perspectives on the role of emotion regulation processes in dysfunction and health. In addition to advancing the latest empirical developments, this volume will also be a prime resource for graduate students and practitioners working with children, couples, and families for whom emotion regulation difficulties are targets of clinical intervention.

The Science of Emotional Intelligence Gerald Matthews, Moshe Zeidner, Richard D. Roberts, 2007 During the past decade, emotional intelligence has been subjected to both scientific and public scrutiny. Numerous articles have been published on the topic in both academic journals and the popular press, testifying to the potential usefulness of emotional

intelligence in psychology business education the home and the workplace However until now there has been no systematic synthesis that grounds emotional intelligence in contemporary theory while simultaneously sorting scientific approaches from popular fads and pseudoscience Bringing together leading international experts from a variety of sub disciplines this volume aims to integrate recent research on emotional intelligence The contributors address a set of focused questions concerning theory measures and applications How does emotional intelligence relate to personality What is the optimal approach to testing emotional intelligence How can emotional intelligence be trained In the final section of the book the volume editors distill and synthesize the main points made by these experts and set forth an agenda for building a science of emotional intelligence in the future Science of Emotional Intelligence will be an invaluable resource for researchers and professionals in psychology education the health sciences and business

Emotional Intelligence Ralf Schulze, Richard D. Roberts, 2005 The concept of Emotional Intelligence EI the ability to perceive express understand and regulate emotions is still the subject of scientific debate despite its intuitive appeal and widespread popular interest in areas such as human resources education and organizational psychology This book brings together leading experts from around the world to present their perspectives on the current status of EI It covers theories of EI and assessment approaches in depth as well as theoretical concepts and research findings on the antecedents and consequences of EI in occupational educational and clinical settings The contributions provide an overview of the empirical evidence that supports as well as contradicts many common assumptions about EI and its relation to other forms of intelligence The book thus reflects the diverse approaches to finding solutions for the still unresolved conceptual and empirical problems and offers a critical appraisal of the current status of EI

Social Emotions and Their Influences Huiyan Lin, Giorgio Coricelli, Chunliang Feng, Siyang Luo, Steven Young, 2023-06-06 The common dimensional model of emotion has emphasized that emotional information is generally processed from two dimensions valence from negative to positive and arousal from low to high Recently several theories have proposed that emotions also vary along a sociality dimension ranging from non social emotions i e basic biological drives to social emotions i e complex social interactions Specifically non social emotions e g fear are derived from incentives or aversive emotions that have direct physiological relevance whereas social emotions e g guilt are elicited within the context of social information processing or social cognition Multiple empirical studies have investigated the processing of non social emotions and the influences of these emotions on other cognitive processes However questions regarding social emotion processes and their influences are still open For example little is known about psychological and neural mechanisms underlying different social emotions processes e g guilt shame love envy and pride the development and individual differences of social emotions or the influences of social emotions on social behaviors and decision making Therefore this Research Topic aims to gain a deeper understanding of how different social emotions are processed among different populations and how these social emotions influence other cognitive processes We aim to have a collection of studies which

extend the theoretical technical and empirical knowledge about psychological and neural mechanisms underlying social emotions processes as well as the influences of these processes on other cognitive processes in particular on social decision making We encourage studies from different domains e g emotion behavioural economics and decision making implemented by different techniques e g behaviour electrophysiology neuroimaging and brain stimulations among different populations e g healthy adults children and elderly persons with psychological traits and personalities and psychiatric patients
