The Icarus Deception Seth Godin,2012-12-31 In Seth Godin's most inspiring book he challenges readers to find the courage to treat their work as a form of art Everyone knows that Icarus's father made him wings and told him not to fly too close to the sun he ignored the warning and plunged to his doom The lesson Play it safe Listen to the experts It was the perfect propaganda for the industrial economy What boss wouldn't want employees to believe that obedience and conformity are the keys to success But we tend to forget that Icarus was also warned not to fly too low because seawater would ruin the lift in his wings Flying too low is even more dangerous than flying too high because it feels deceptively safe The safety zone has moved Conformity no longer leads to comfort But the good news is that creativity is scarce and more valuable than ever So is choosing to do something unpredictable and brave Make art Being an artist isn't a genetic disposition or a specific talent It's an attitude we can all adopt It's a hunger to seize new ground make connections and work without a map If you do those things you're an artist no matter what it says on your business card Godin shows us how it's possible and convinces us why it's essential

Bridging Engagement Gaps Vincent Miholic Ph.D.,2016-08-18 Bridging Engagement Gaps amasses an eclectic blend of business research and analysis philosophy and the arts as well as practical examples and illustrations to better understand the obstacles we confront and the foundational constructs related to realizing optimal worker engagement Whether you are an intern thirty year employee manager or business owner you play a critical role in determining personal and organizational success Leadership in the workplace begins with basic decency and integrity and has little to do with job titles Therefore there must be widespread participation in critical decision making if your intent is to engage everyone This resource guide delivers tools and strategies to drive exploratory and evaluative conversations about driving more engagement in the workplace Learn how to define what engagement means and why it's important celebrate the success of others to drive engagement landscape a culture in which employees flourish and champion multiple points of view Fully engaged employees bring passion purpose and discretionary energy to their work but they must feel secure in taking risks and know that their suggestions count Give them the tools they need to succeed while helping disengaged employees rediscover their passion by Bridging Engagement Gaps

Ship It Seth Godin,2017-11-10 The system we grew up with is a mess It's falling apart at the seams and a lot of people I care about

maybe you are in pain because the things we thought would work don't. Every day I meet people who have so much to give but have been bullied enough or frightened enough to hold it back. They have become victims, pawns in a senseless system that uses them up and undervalues them. It's about a choice and it's about your life. This choice doesn't require you to quit your job though it challenges you to rethink how you do your job. It's time to stop complying with the system and draw your own map. Stop settling for what's good enough and start creating art that matters. Stop asking what's in it for you and start giving gifts that change people. Then and only then will you have achieved your potential. For hundreds of years the population has been seduced, scammed and brainwashed into fitting in, following instructions and exchanging a day's work for a day's pay. That era has come to an end and just in time. You have brilliance in you, your contribution is valuable and the art you create is precious. Only you can do it and you must. I'm hoping you'll stand up and choose to make a difference. **WOW!**
