Design Of Formula Sae Suspension:

Design of Formula SAE Suspension Badih A. Jawad, Jason Baumann, 2002 *Design and Integration of a Formula SAE Suspension System* Patrick Drum, 2004 **Handling-driven Design of Formula SAE Suspension**, 2024 This thesis covers the design of a suspension system for a Formula SAE racecar with particular emphasis given to demonstration of proper roll rates for optimum handling This study will first overview the Formula SAE event as well as relevant parameters relating to suspension design It will then overview Pacejka tire modeling before examining and selecting a tire for the vehicle Physical suspension parameters will then be determined and programmed into a wireframe to generate a suspension architecture Handling balance of the vehicle will be evaluated for a sweep of roll couple distributions and ride and roll rates will be set for desired handling Finally the suspension will be simulated against the previous suspension design to evaluate the effectiveness of the proposed changes **Design and Analysis of Formula SAE Car Suspension Members** Evan Drew Flickinger, 2014 The suspension system of a FSAE Formula Society of Automotive Engineers vehicle is a vital system with many functions that include providing vertical compliance so the wheels can follow the uneven road maintaining the wheels in the proper steer and camber attitudes to the road surface and reacting to the control forces produced by the tires acceleration braking and cornering The members that comprise the suspension are subjected to a variety of dynamic loading conditions it is imperative that they are designed properly to ensure the safety and performance of the vehicle The goal of this research is to develop a model for predicting the reaction forces in the suspension members based on the expected load scenarios the vehicle will undergo This model is compared to the current FSAE vehicle system and the design process is explained The limitations of this model are explored and future methodologies and improvement techniques are discussed
