

## CHAPTER 4: PERSONALITY & SOCIAL PSYCHOLOGY

The study of personality and social psychology often go together as we try to understand human behavior.

As you will see throughout this chapter, one's personality and one's social environment are often discussed and studied together as \_\_\_\_\_ of behavior.

This chapter presents both the \_\_\_\_\_ of personality and social behavior and the \_\_\_\_\_ foundation for them.

Most agree that personality is a stable and consistent set of characteristics that affects how an individual thinks and behaves.

Personality is complex, and research has suggested it is formed by a combination of genetics and social learning.

Personality is one of the ways that God has created you uniquely.
