

## ELEMENTS OF A GRID

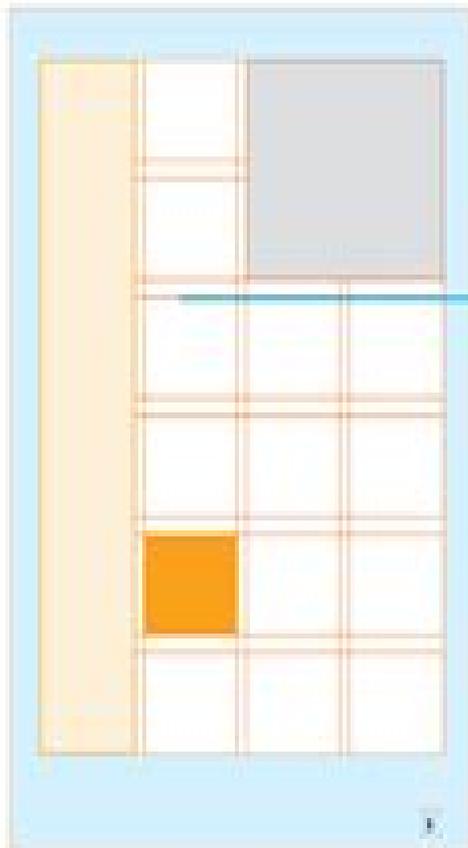

### 1. Know the Components

The main components of a grid are margins, columns, columns, leading, tracking, gutter lines, and baselines. Starting with a page that is four pages wide and four pages high, let's see how you might use these elements to create a layout.

**MARGINS** are vertical columns that define the space between the text and the edges of the page. The width and number of margins on a page or across the entire spread are determined by the content.

**MODULES** are individual elements, typically, repeated across a grid. Consistent modules can create interest and ease of reading.

**MARGINS** are the space between the text and the page content. Margins can be used to create a hierarchy of information, such as text and images.

**MARGINS** are groups of elements or content that can be used to create a hierarchy of information.

**FLYLINE** is a horizontal line that runs across the page. It is used to create a hierarchy of information.

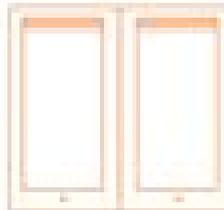

**MARGINS** are the space between the text and the page content. Margins can be used to create a hierarchy of information, such as text and images.
