**Life-span human development** Carol K. Sigelman, Elizabeth A. Rider, 2009 *Journey Across the Life Span* Elaine U Polan, Daphne R Taylor, 2019-01-16 Here's just what you need to effectively care for your patients at any stage of life in today's ever-changing world of health care Elaine Polan and Daphne Taylor guide you through the life cycle from conception to old age with an emphasis on health promotion, maintenance, and restoration in clinical practice **Human Development** Robert V. Kail, John C. Cavanaugh, 2013 Balanced coverage of the entire life span is just one thing that distinguishes HUMAN DEVELOPMENT: A LIFE SPAN VIEW 6E International Edition. With its comprehensive, succinct, and applied coverage, the text has proven its ability to capture students' interest while introducing them to the issues, forces, and outcomes that make us who we are. Robert V. Kail's expertise in childhood and adolescence combined with John C. Cavanaugh's extensive research in gerontology result in a book with a rich description of all life span stages and important topics. A modified chronological approach traces development in sequential order from conception through late life while also dedicating several chapters to key topical issues. This organization also allows the book to be relatively briefer than other texts, a benefit given the enormous amount of information covered in the course. *Life Span Human Development* Carol K. Sigelman, Linda De George, Kimberley Cunial, Elizabeth A. Rider, 2018-09-01 The third edition of *Life Span Human Development* helps students gain a deeper understanding of the many interacting forces affecting development from infancy, childhood, adolescence, and adulthood. It includes local, multicultural, and indigenous issues and perspectives, local research in development, regionally relevant statistical information, and National guidelines on health. Taking a unique, integrated, topical, and chronological approach, each chapter focuses on a domain of development such as physical growth, cognition, or personality and traces developmental trends and influences in that domain from infancy to old age. Within each chapter, you will find sections on four life stages: infancy, childhood, adolescence, and adulthood. This distinctive organization enables students to comprehend the processes of transformation that occur in key areas of human development. This text also includes a MindTap course offering with a strong suite of resources, including videos, and the chronological sections within the text can be easily customised to suit academic and student needs. **Life Span Human Development 4e** Carol K. Sigelman, Linda De George, Kimberley Cunial, Mark Kohler, Nadine Ballam, Elizabeth A. Rider, 2021-10-01 *Life Span Human Development* is about the development of human beings from conception to death. It highlights similarities as well as differences in developmental stages and asks fundamental questions about why we humans develop as we do. Taking a unique, integrated, topical, and chronological approach, each chapter focuses on a topic or domain of development such as physical growth, cognition, or personality and traces developmental trends and influences in that domain from infancy to old age. This unique framework supports practical applications and helps students understand how we use psychology to deal with everyday challenges. Nairne emphasizes the ways particular behaviors, thought processes, and emotions help us solve problems, from memorizing a telephone number to ducking under cover as a building begins to shake to producing a quick physical response in the face of traffic hazards.
