

# Summative Assessment

Summative Assessment is used to measure the different ways learners use and apply knowledge, understanding, and skills. There are three components for this kind of assessment.

## Written Work

This component ensures that learners can express skills and ideas in written form through: **essays, written reports, and other written output.**

## Performance Tasks

This component allows learners to show what they know and what they can do in diverse ways through: **group presentations, oral work, research projects, etc.**

## Quarterly Assessment

This component measures student learning at the end of the quarter through: **objective tests, performance-based assessments, or both.**
