Review: Readers are assured the latest interdisciplinary scholarship from an emerging field of study that examines the social history of children and childhood. Some 445 expertly written articles bring new insight and understanding about the lived experiences of children and the many complex cultural meanings ascribed to childhood. Emphasizing social history yet treating a broad range of related topics, the set also contains a thematic outline of contents, comprehensive index, and appendix that lists important primary sources. This edition of *Community Health Nursing: Concepts and Practice* continues to be written with you, the undergraduate nursing student, in mind. It is user-friendly with many mini case studies woven throughout the text in order for you to more easily apply the information with your clients. The text is comprehensive and incorporates the impact of the global health status. We are a small planet with big health problems that impact each person's health, and the role of the community health nurse now and in the future. As a nation, we have a new and continuing health agenda through *Healthy People 2010* that gives direction to our work. These new goals and objectives are incorporated throughout the text. Finally, the text format is designed to provide you with the comprehensive, globally sensitive information and skills you need to be an effective practitioner with aggregates, groups, and individuals in the community. *Literature and the Child* Bernice E. Booklists direct readers to quality literature, and extended discussions of selected titles demonstrate the selection criteria. Multicultural literature is discussed throughout the text, with a separate chapter on more specific multicultural issues. Numerous teaching ideas, many of which are contributed by classroom teachers, provide practical applications.
