Narratives of Pedagogical Development and Navigation of Educational Contexts Gierhart, Aaron R.,2025-06-19 Educators continually adapt and grow within the changing landscape of teaching and learning As they respond to new challenges ranging from policy reforms and technological shifts to diverse classroom dynamics they craft personal and professional narratives that reflect their pedagogical approaches These stories reveal how teachers make sense of their experiences negotiate their roles and strive to meet the needs of their students within complex educational settings Understanding these journeys may offer valuable insights into the ways educators learn reflect and transform their practices Narratives of

Pedagogical Development and Navigation of Educational Contexts explores various stories of pedagogy and teaching as a process of growth and change. It presents an alternative to traditional views of teaching as a profession, examining the social and political forces impacting education and highlighting the realities of teaching amidst various social challenges and political issues. This book covers topics such as sociology, teacher training, and education policy and reform, and is a useful resource for educators, sociologists, policymakers, academicians, researchers, and scientists.

Girl, Goddess, Queen Bea Fitzgerald, 2025-09-02. To hell with love, this goddess has other plans. Thousands of years ago, the gods spun a myth based on a lie. They claimed that though Persephone was to be a prize bride for the most deserving god, Hades kidnapped her for himself. That she was just a pawn in the complicated politics of Olympus. That her mother, Demeter, was so distraught she caused the Earth to start dying. The real story is much more interesting. Persephone wasn't taken to hell; she jumped. There was no way she was going to be married off to some smug god more in love with himself than her. Now all she has to do is convince the Underworld's annoyingly sexy, arrogant, and frankly rude ruler, Hades, to fall in line with her plan. A plan that will shake Mount Olympus to its very core. But consequences can be deadly, especially when you're already in hell. A fierce, fresh, and enormously fun YA fantasy reimagining from a growing TikTok star.

Systems from Hell David A. Rochefort, 2024-12-01. This book approaches contemporary fiction as a medium for policy advocacy, one whose narrative devices both link it to and distinguish it from other forms of public discourse. Using the framework of political agenda setting, David A. Rochefort analyzes the rhetorical function of problem definition played by literary works when they document and characterize social issues while sounding the call for systemic reform. Focusing on a group of noteworthy realist novels by American authors over the past twenty years, this study maintains that fictional narrative is a potentially influential instrument of empathic policy argument. The book closes by examining the agenda setting dynamics through which a social problem novel can contribute to the process of policy change.
