**Pacific Rim Objective Measurement Symposium (PROMS) 2012 Conference Proceeding** Quan Zhang,Hong Yang,2013-06-13 Entrusted by the Board of Management of the Pacific Rim Objective Measurement Symposium PROMS PROMS2012 is held in Jiaxing China from August 6 9 2012 Over the past years PROMS has been hosted in many parts of the Pacific Rim in Singapore Malaysia Hong Kong Taiwan and Tokyo which has greatly promoted the research of and contributed to the development of Rasch Model in one way or another As early as in 1980s the ideas and concepts regarding IRT was first introduced into China by Prof Gui Shichun my Ph D supervisor and it is Prof Gui who first conducted with great success the ten year long 1990 1999 Equating Project for Matriculation English Test MET in China MET is the most influential entrance examination for higher education administered annually to over 3 3 million candidates then The Equating Project won recognition by Charles Alderson and other foreign counterparts during 1990s Academically those were Good Old Days for Chinese testing experts and psychometricians Then for certain reasons the equating practice abruptly discontinued Therefore in China nowadays the application of IRT based software like BILOG Parscale Iteman 4 and others to real testing problem solving is confined to an extremely small band of people In this sense PROMS2012 meets an important need in that it provides an excellent introduction of IRT and its application And anyone who is seriously interested in research and development in the field of psychometrics or language testing will find such a symposium and related workshops to be an excellent source of information about the application of Rasch Model PROMS2012 focuses on recent advances in objective measurement and provides an international forum on both the latest research in using Rasch measurement and non Rasch practice

*Technology-Mediated Learning Environments for Young English Learners* L. Leann Parker,2023-05-31 This book explores issues related to the use of technologies to support young second language learners and looks at promising areas for research design and development Grounded in a sociocultural theoretical framework it invites educators researchers and educational technology developers to consider a range of social and cultural factors in utilizing technology as a tool to help children from diverse linguistic and cultural backgrounds develop their English language and reading skills A major contribution is the authors consideration of ways that technology outside of school can benefit these students English language development in school The central chapters are counter pointed by invited reflections that bring to the discussion different yet complementary perspectives from notable scholars in the field of second language literacy and learning Technology Mediated Learning Environments for Young English Language Learners is targeted to researchers educators and policymakers in the areas of elementary education after school learning second language teaching and learning English language and literacy development and reading
