Hooser, 2020-06-16 *Leveling up* is the only foolproof success strategy It means owning your responsibility for taking control of who you are what you do and what your life will become This book is written for the men and women grinding it out every day at work and wanting so badly to be more valued and get to the next level It s for the young professionals entering the workforce with big dreams who want to know exactly what it takes to advance in their career It s for anyone who has wanted more out of life but just hasn t been able to make the shift to take control of their future Many books teach you the steps you need to take to change your life But they re missing the critical foundational action that is necessary to ensure your new habits stick the one element that distinguishes high achieving professionals from those still waiting for success to find them Most people know what they should do and yet they don t do it The fact is that it does not matter how much you know nothing will change for you unless you own the responsibility of leveling up Alyson Van Hooser has discovered the crucial knowledge you must have actions you must take and areas of your life you must own if you want to shift the trajectory of your professional life to work in your favor In *Level Up* you ll learn the secrets to professionalization and the exact steps required to gain respect increase opportunity and harness the power to crush all your goals including How to lay down your law so you don t get off track How to get ahead by identifying and strategically adapting to what motivates individuals in different generations from different social classes with different life experiences How to make your emotions work for rather than against you Ways to make networking impressive instead of awkward What self care truly means hint choosing YOU and your goals And much more Be bold Make your own hype And be accountable to the grind Success and growth are often uncomfortable but you re not going to crush your goals by sitting idle doing the bare minimum and following the herd It s time to LEVEL UP *Commons, Citizenship and Power* Filippo Barbera, Emma Bell, 2025-01-10 Since the 2010s populism and illiberal politics have been on the rise Demagogue leaders preach simplified rhetoric to vilify the powerless polarising city and rural areas and sparking such shocking events as the US insurrection on 6th January 2021 This interdisciplinary book argues for a politics of representativity and accountability to help transform people s experiences showing that where

they live matters and therefore so do they This book demonstrates how place based politics can draw on and benefit from collective local knowledge rather than deferring to a nameless central government Analysing democratic theory and using rich case studies from protest movements to citizens assemblies it shows how it can return a sense of control to the people

The Mills-Bakeries of Ostia Jan Theo Bakker,2023-01-16 The ruins of Ostia main harbour of Imperial Rome were uncovered in the late nineteenth and first half of the twentieth century In the present volume the remains of three buildings used for the milling of grain and baking of bread pistrina are studied according to modern archaeological standards A detailed analysis of the architecture and masonry allows a description of the installation and vicissitudes of the pistrina Subsequently the distribution of these buildings in the city and their place in the neighbourhood is studied The technical achievement of the Ostian bakers is assessed Although water power was sometimes used in Roman grain mills this was not the case in Ostia This in turn affects estimates of the output of the pistrina Nevertheless the amount of bread that was produced must have been considerably higher than that in Pompeii where many small bakeries have been preserved No remains of bakeries have ever been found in Rome or Constantinople but it may be assumed that the average bakery in these cities did not differ much from the Ostian workshops Involvement of the fisc with the Ostian bakers has already been suggested by Bakker in *Living and Working with the Gods* The role of the Emperor is dealt with in this volume once more The Ostian corpus pistorum presumably fed Imperial slaves and the local fire brigade There are good reasons to assume that

Ostia like Rome knew distributions of free grain
