Curriculum* Amy J. Catalano, 2015-09-28 If you are a librarian charged with collecting curriculum materials and children's  
literature to support the Common Core State Standards then this book the only one that offers explicit advice on collection  
development in curriculum collections is for you While there are many publications on the Common Core for school librarians  
and K 12 educators no such literature exists for curriculum librarians at the post secondary level This book fills that gap  
standing alone as a guide to collection development for curriculum librarians independent of the Common Core State  
Standards CCSS The book provides instruction and guidance to curriculum librarians who acquire and manage collections so  
you can develop a collection based on best practices The book begins with a primer on the CCSS and how curriculum

H. Jeynes, 2021-02-01 This book calls for a multidimensional and comprehensive approach to reduce the number of school  
shootings rather than the simplistic unidimensional strategy that is commonly advocated Based on meta analyses examining  
which variables are most often related to positive changes in violent student behavior it also integrates other research and  
historical trends in order to formulate recommendations regarding how to reduce school shootings The topic of school  
shootings is one of the most vital issues in society today because 1 schools should be the safest places on Earth for children 2  
if students do not feel safe they are not going to learn very well in school and 3 it is of such great concern to parents and  
society at large as evinced by the degree of news coverage that school shooting incidents receive Sadly despite the gravity of  
the problem many people tend to either respond in an emotional way or propose simplistic solutions Gun control legislation  
alone will not solve the problem instead it calls for a multi disciplinary and multifaceted approach involving parents teachers  
schools and healthcare This book investigates the status quo goals and solutions pursuing a fact based approach This book is  
of special interest to the academic community national leaders and other policymakers It is also suitable for courses on  
education psychology sociology criminal justice and other areas of law It will also appeal to the general audience *I2010*
