Science Fiction as Legal Imaginary Alex Green, Mitchell Travis, Kieran Tranter, 2024-11-21 This book examines how science fiction informs the legal imagination of technological futures Science fiction the contributors to this book argue is a storehouse of images tropes concepts and memes that inform the legal imagination of the future and in doing so generate impetus for change Specifically the contributors examine how science fictions imagine human life in space in the digital and as formed and negotiated by corporations They then connect this imaginary to how law should be understood in the present and changed for the future Across the chapters there is an urgent sense of the need for law as it is has been and as it might become to order and safeguard the future for a multiplicity of vulnerable entities This book will appeal to scholars and students with interests in law and technology legal theory cultural legal studies and law and the humanities

The Dynamic Structure of Everyday Life Philip Agre, Massachusetts Institute of Technology. Artificial Intelligence Laboratory, 1988 A running argument means continually redeciding what to do Continually redeciding what to do is more flexible than executing a plan because it is more responsive to opportunities and contingencies It is possible to approximate the ideal of continual redecision because life is wholly a routine The routine portion of the reasoning leading to each moment's action can be implemented very efficiently by recording the reasons behind any novel bits of reasoning a method known as dependency maintenance A computer program called the running argument illustrates this point
