will provide you and your students with the most effective text for learning statistics and succeeding on the AP Exam

Statistics Robin H. Lock, Patti Frazer Lock, Kari Lock Morgan, Eric F. Lock, Dennis F. Lock, 2015-12-16 *Statistics Unlocking the Power of Data* 4th Edition with corequisite support content is designed for an introductory statistics course focusing on data analysis using real world data and applications. Students use simulation methods to effectively collect, analyze, and interpret data to draw conclusions. Randomization and bootstrap interval methods introduce the fundamentals of statistical inference, bringing concepts to life through authentically relevant examples. More traditional methods like t tests, chi square tests, etc. are introduced after students have developed a strong intuitive understanding of inference through randomization methods. While any popular statistical software package may be used, the authors have created StatKey to perform simulations using data sets and examples from the text. A variety of videos, activities, and a modular chapter on probability are adaptable to many classroom formats and approaches.

CliffsAP Statistics David A. Kay, 2004-12-03 Your complete guide to a higher score on the AP Statistics exam. Why CliffsTestPrep Guides Go with the name you know and trust.
