Nudge and the Law Alberto Alemanno, Anne-Lise Sibony, 2015-09-24 Behavioural sciences help refine our understanding of human decision making Their insights are immensely relevant for policy making since public intervention works much better when it targets real people rather than imaginary beings assumed to be perfectly rational Increasingly governments around the world are keen to rely on those insights for reshaping public interventions in a wide range of policy areas such as energy health financial services and data protection When policy making meets behavioural sciences effective and low cost regulations can emerge in the form of default rules smart disclosure and simplification requirements While behaviourally informed intervention has a huge potential for policymaking it also attracts legitimacy and practicability concerns Nudge and the Law takes a European perspective on those issues and explores the legal implications of the emergent phenomenon of behavioural regulation by focusing on the challenges and opportunities it may offer to EU policy making and beyond

The Law of Good People Yuval Feldman,2018-06-07 This book argues that overcoming people s inability to recognize their own wrongdoing is the most important but regrettably neglected area of the behavioral approach to law

Regulatory Policy and Behavioural Economics Pete Lunn,2014 Over the past five years behavioural economics has been rapidly propelled from the margins of economic analysis towards the policy mainstream In this context this study offers an international review of the initial applications of behavioural economics to policy with a particular focus on regulatory policy It describes the extent to which behavioural findings have begun to influence public policy in a number of OECD countries referring to a total of more than 60 instances the majority of which concern regulatory policy
