David Frank Benson, Alfredo Ardila

Child Language And Developmental Dysphasia:

Child Language and Developmental Dysphasia Harald Clahsen, 1991 The subject of this two part work is the acquisition of language structure in which the development of syntax and morphology is examined by investigations on children without language problems and on children with developmental dysphasia The author uses a comparative acquisition study to provide insights into the structure and development of the language acquisition device which cannot be obtained by isolated analysis of only one type of learning The theoretical framework used for the investigations is the learnability theory in which acquisition models are proposed which are heavily influenced by theoretical linguistics Part I shows how child grammar acquisition can be explained in the framework of learnability theory and Part II deals with deficiencies in normal grammar acquisition using the learnability theory

Aphasia David Frank Benson, Alfredo Ardila, 1996 An up to date integrated analysis of the language disturbances associated with brain pathology this book examines the different types of aphasia combining two clinical approaches the neurological and the neuropsychological Although they stress the clinical aspects of aphasia syndromes they also review assessment techniques linguistic analyses problems of aphasia classification and frequently occurring related disorders such as alexia agraphia acalculia and anomia In addition they examine commonly encountered speech disorders neurobehavioral and psychiatric problems commonly associated with aphasia and the language characteristics of aging and dementia Rehabilitation and recovery are discussed and a neural basis for aphasia and related problems is proposed Neuropsychologists neurologists speech therapists psychiatrists and occupational therapists will find this book invaluable when dealing with language disorders resulting from brain disease or injury

Developmental Dysphasia Maria A. Wyke, 1978 *Hispanic Child Languages* John Grinstead, 2009-10-22 This book contains 12 papers contributed by leading scholars in the field of language development studying variants of the languages which originated on the Iberian peninsula The contributors examine language development in both typically developing and language impaired populations who are learning language in diverse learning conditions including language contact as well as monolingual and bilingual Spanish Catalan Galician and Euskera This expansion and diversification of the database for studying language development is important because it creates new opportunities for testing theoretical claims Our contributors reconsider theoretical claims relating to the purported adult like nature of young children's grammars While some conclude for example that children in Mexico possess very adult like semantic pragmatic competence in the domain of the pragmatic implicatures associated with existential quantifiers others conclude that in particular sociolinguistic registers of Chilean Spanish children are late to develop adult like competence in plural marking Taken together the contents of the volume illustrate how the linguistic diversity found in the distinct learning conditions in which language develops offers a wealth of opportunities to further our understanding of linguistic and non linguistic cognitive development

Managing Children with Developmental Language Disorder James Law, Cristina McKean, Carol-Anne Murphy, Elin

Thordardottir,2019-04-09 Although most children learn language relatively quickly as many as 10 per cent of them are slow to start speaking and are said to have developmental language disorder DLD Children with DLD are managed by a variety of different professionals in different countries are offered different services for different periods of time and are given a variety of different therapeutic treatments To date there has been no attempt to evaluate these different practices Managing Children with Developmental Language Disorder Theory and Practice Across Europe and Beyond does just this reporting on the findings of a survey carried out as part of the work of COST Action IS1406 a European research network Law and colleagues analyse the results of a pan European survey looking at how different services are delivered in different countries at the cultural factors underpinning such services and the theoretical frameworks used to inform practice in different countries The book also provides a snapshot of international practices in a set of 35 country specific vignettes providing a benchmark for future developments but also calling attention to the work of key practitioners and thinkers in each of the countries investigated This book will be essential reading for practitioners working with children with language impairments those commissioning services and policy in the field and students of speech and language therapy
