

Design a Hotel Management System

Let's design a hotel management system.

A Hotel Management System is a software built to handle all online hotel activities easily and safely. This System will give the hotel management power and flexibility to manage the entire system from a single online portal. The system allows the manager to keep track of all the available rooms in the system as well as to book rooms and generate bills.

System Requirements

We'll focus on the following set of requirements while designing the Hotel Management System:
