Panchadasi, 2015-06-02 Excerpt from Clairvoyance and Occult Powers In preparing this series of lessons for students of Western lands I have been compelled to proceed along lines exactly opposite to those which I would have chosen had these lessons been for students in India This because of the diametrically opposite mental attitudes of the students of these two

several lands The student in India expects the teacher to state positively the principles involved and the methods whereby these principles may be manifested together with frequent illustrations generally in the nature of fables or parables serving to link the new knowledge to some already known thing The Hindu student never expects or demands anything in the nature of proof of the teachers statements of principle or method in fact he would regard it as an insult to the teacher to ask for the same Consequently he does not look for or ask specific instances or illustrations in the nature of scientific evidence or proof of the principles taught He may ask for more information but solely for the purpose of bringing out some point which he has not grasped but he avoids as a pestilence any question seeming to indicate argument doubt of what is being taught him or of the nature of a demand for proof or evidence About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books Find more at www.forgottenbooks.com This book is a reproduction of an important historical work Forgotten Books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy In rare cases an imperfection in the original such as a blemish or missing page may be replicated in our edition We do however repair the vast majority of imperfections successfully any imperfections that remain are intentionally left to preserve the state of such historical works **How Clairvoyance Is Developed** C.
