**Modern Challenges to Islamic Law** Shaheen Sardar Ali, 2016-10-06 This book offers unique insights into Islamic law considering its theoretical perspectives alongside its practical application in daily Muslim life

**The Objectives of Islamic Law** Rumea Ahmed, Idris Nassery, Muna Tatari, 2020-07-06 Scholars, thinkers and activists around the world are paying increasing attention to a legal reform method that promises to revolutionize the way people think about Islamic law. Known as The Objectives of the Shari'ah, the theory offers a way to derive and apply new Islamic laws using an ancient methodology. The theory identifies core objectives that underlie Islamic law and then looks at inherited Islamic laws to see whether they meet those objectives. According to the maqasid theory, historical Islamic laws that meet their objectives should be retained and those that do not, no matter how entrenched in practice or embedded in texts, should be discarded or reformed. Recently, several scholars have questioned the maqasid theory, arguing that it is designed not to reform laws but to support existing power structures. They warn that adopting the maqasid wholesale would set the reform project back, ensuring that inherited Islamic laws are never fully reformed to agree with contemporary values like gender egalitarianism and universal human rights.

**The Objectives of Islamic Law: The Promises and Challenges of the Maqasid al-Shari'ah** captures the ongoing debate between proponents and skeptics of the maqasid theory. It raises some of the most important issues in Islamic legal debates today and lays out visions for the future of Islamic law.

**Islamic Law and the Challenges of Modernity** Yvonne Yazbeck Haddad, Barbara Freyer Stowasser, 2004-03-27 Since Europeans first colonized Arab lands in the 19th century, they have been pressing to have the area's indigenous laws and legal systems accord with Western models. Although most Arab states now have national codes of law that reflect Western influence, fierce internal struggles continue over how to interpret Islamic law, particularly in the areas of gender and family. From different geographical and ideological points across the contemporary Arab world, Haddad and Stowasser demonstrate the range of views on just what Islam's legal heritage in the region should be. For either law or religion classes, **Islamic Law and the Challenges of Modernity** provides the broad historical overview and particular cases needed to understand this contentious issue.

**Issues in Islamic Law** Mashood A. Baderin, 2017-07-05 Islamic substantive law, otherwise called branches of the law (furu al-fiqh), covers the textual provisions and jurisprudential rulings relating to specific transactions under Islamic law. It is to Islamic substantive law that the rules of Islamic legal theory are applied. The relationship between Islamic legal theory and Islamic substantive law is metaphorically described by Islamic jurists as a process of cultivation (istithmar) whereby the qualified jurist (mujtahid) as the cultivator uses relevant rules of legal theory to harvest the substantive law on specific issues in form of fruits (thamarat) from the sources. The articles in this volume engage critically with selected substantive issues in Islamic law, including family law, law of inheritance, law of financial transactions, criminal law, judicial procedure, and international law (al-siyar). These areas of substantive law have been selected due to their contemporary relevance and application in different parts of the Muslim world today. The

volume features an introductory overview of the subject as well as a comprehensive bibliography to aid further research
