Heffner, Jessica A. Cowan, 2022-08-25

Supervision is the cornerstone of clinical training across all types of mental health providers. It facilitates the growth of mental health trainees and maintains the integrity of the field of mental health services by ensuring the competency of clinicians. However, the process can be complex and potentially confusing for both supervisors and trainees at any stage of their development or post licensure career. Utilizing strength based approaches is crucial to the success of supervision. This workbook facilitates a collaborative and strength based approach to clinical supervision that both supervisors and trainees can use during the entire course of supervision or for specific goals related to supervision. Each chapter of this workbook contains information and activities specific to both the trainee and supervisor to facilitate dialogue about individual and combined strengths, areas for growth, and goals for collaborative work. This is an essential start to a finish guide addressing the entire supervision process from preparing for the first session to conducting the last session and everything in between.

*Promoting Positive Processes After Trauma* targets one of the most damaging effects of trauma: ongoing impairment across the whole of living. Viewing clients with trauma histories from the perspectives of their shared experiences is the foundation for the application of six strengths and virtues studied by positive psychology: hope, positive emotions, resilience, forgiveness, spirituality, and religiosity, and meaning making. The lived trauma experience of the contributing author illustrates actual means of change. Presents foundational information and newest findings from trauma and from positive psychology. Covers strengths and virtues that can be directly targeted in treatment or used as ancillary treatment goals. Provides further readings suitable for clients and for clinicians. Concludes with an integrative exploration of the organization of positive processes and their integration into portfolios.      *Psychology Catalog 2005* Neil Thomson, 2004-09      [A Practical Guide to Positive Psychology](#) Bridget Grenville-Cleave, 2012-01-05.
