TIME MANAGEMENT IN THE LIFE OF A SCHOLAR Kabiru Isa Dandago,2015-12-05 Time management is a subject that concerns everybody It is a challenge that has to be faced squarely by everyone who is interested in accomplishing his her tasks within the limited time available and this time is equally endowed Good time management is an important factor in getting things done within the available 24 hour period of a day This book specially targets scholars who should be role models to other people on effective time management and utilization It is also hoped that the book will stimulate further research on the principles models and theories of time management Although the book has the scholar in mind other users of time in the various sectors of any economy will also find it useful Time Management Richard Luecke,2005

BUSINESS Essential Bloomsbury Publishing,2015-03-20 The concise updated edition of international bestseller BUSINESS The Ultimate Resource This essential guide to the world of work and careers is crammed with top quality content from the world s leading business writers and practitioners and is ideal for students and time pressed managers alike The HBR Essential 20-Minute Manager Collection Harvard Business Review,2017-11-28 Whether you re starting out in your career or just want a refresher on the fundamentals the HBR Essential 20 Minute Manager Collection gives you a hand picked selection of concise practical primers on the professional skills you need to master most This specially priced five volume set includes Getting Work Done Managing Time Presentations Running Meetings and Difficult Conversations You ll

learn how to Prioritize your work Determine the right time to work on each task and avoid distractions Deliver presentations that persuade Plan ahead to set your meetings up for success Navigate conflict while making sure all voices are heard Address difficult situations without the drama Don't have much time Get up to speed fast on the most essential business skills with HBR's 20 Minute Manager series Whether you need a crash course or a brief refresher each book in the series is a concise practical primer that will help you brush up on a key management topic Advice you can quickly read and apply for ambitious professionals and aspiring executives from the most trusted source in business Also available as an ebook

From Techie to Boss Scott Cromar, David M. Jacobs, 2013-08-17 From Techie to Boss teaches technical people who are making or mulling the transition from team player to team leader all the management techniques and soft leadership skills they never needed before but need now pronto Veteran team lead and project manager Scott Cromar lays out the classical management training course but stripped down to precisely the essentials that techies need to start managing on the fly He gets it that a front line techie getting a field promotion to team leader just doesn't have the time to wade through an MBA textbook bulging with irrelevant material The author appreciates how you got to the place where you need this book Management tapped you instead of some experienced manager from the outside because you know the technical challenges company culture and team players better than anyone else you're ready to hit the ground running But the skills that make you an excellent techie are not sufficient to make you a successful manager The rules of your world have abruptly changed You will now be judged not by your puzzle solving elegance but by how effectively your team contributes to the organization's bottom line From Techie to Boss shows you how to translate and adapt the analytic skills that made you an outstanding techie to your new responsibilities as a technical manager Even more crucially this book teaches you a whole new set of interpersonal organizational and metrical skills you never needed before but without which you cannot succeed as a manager

Managing the One-Person Library Larry Cooperman, 2014-12-09 Managing the one person library provides a useful and needed resource for solo librarians confronted with the challenges of running a small library The author uniquely focuses on topics encountered by solo librarians such as IT troubleshooting and library security Chapters on library management collection development serials management and library marketing are included to enable solo librarians to easily manage day to day operations in these areas and advise on how to respond to any challenges that should and will arise This book will provide a much needed resource manual that will allow solo librarians of all backgrounds and paraprofessionals to manage their collections as effectively as their larger librarian counterparts Written by a librarian with extensive solo library management in the field Targeted to all types of solo librarians e.g. medical law academic Essential reading for paraprofessional librarians who manage one person libraries
