**Arizona Journal of International and Comparative Law**, 2013     *Fundamentals of International Business Transactions*, 2008     **Uniform Commercial Code and Beyond**, 2008     The New Uniform Commercial Code, 2007     **Lives in the Law** Dora Swee Suan Neo, Hang Wu Tang, Michael Yew Meng Hor, 2007     The International Sale of Goods Michael G. Bridge, 2007. This authoritative new edition addresses international sales of goods and covers contracts governed by English law and contracts governed by the United Nations Convention on the International Sale of Goods. Contract issues are tackled in detail as well as property matters and most notably those issues arising out of the use of documents of title such as marine bills of lading. In addition to the rights and duties of seller and buyer there is substantial material on bankers' documentary letters of credit. The book not only includes commentary on decided cases but also standard form contracts which represent evolving trade practice. Readers gain a contextual understanding of the trading world in which international sales occur through a thorough and detailed case law analysis. New to this edition is commentary on the Contracts Act as well as discussions on conflict of laws, the construction of commercial contracts and e-commerce. The documentary letters of credit and the UN Convention on the International Sale of Goods are given extensive treatment in this edition.

Commercial Law, Selected Statutes, 2008     **PLI's Annual Institute on Securities Regulation in Europe**, 2008     **Private Equity Acquisition Financing Summit**, 2008     **Asper review of international business and trade law**, 2007     The Rotterdam Rules 2008 Alexander von Ziegler, Johan Schelin, Stefano Zunarelli, 2010. The 2008 UNCITRAL Convention commonly known as the Rotterdam Rules promises to achieve the hitherto elusive goal of a legal unification of international transport contracts. Its innovative set of rules accommodates such modern trade practices as those treating the carriage of goods by sea as part of wider door-to-door commercial transport operations and those relying on electronic commerce. It closes many gaps in the existing international transport regime thoroughly specifying the relation of transport documents to the rights and obligations between exporters and importers of goods and clarifying the interests of credit and insurance in contracts of carriage. This remarkable book which will examine the Rotterdam Rules in depth is edited and written by international lawyers intimately familiar with the negotiations leading to the Convention in finished form. It proceeds by a detailed analysis of each of the Convention's 18 chapters in turn in a clause-by-clause manner drawing attention to interlinking implications throughout the document. The book's lucid insights and guidance are especially valuable in showing exactly how the Rules improve the existing international transport regime through its clearer and more complete regulation of such elements as the following and allocation of burden of proof and evidentiary value of transport documents and electronic records including non-negotiable

documents and records and freedom of contract in respect of volume contracts and continuous character of the obligation of seaworthiness and limits of liability and rights during transit and recovery of loss of and damage to goods caused by accidents of navigation and jurisdiction and arbitration and role of subcontracted carriers both on sea and inland and role of warehouses transport terminals and stevedoring companies and risks and contract practices of lenders and interests of freight forwarders cargo insurers and liability insurers and prevention of maritime fraud The authors provide a crystal clear picture that allows the reader to appreciate the balanced way in which the interests of the various stakeholders are addressed by the Rules and the greater legal certainty for each party and its legal position the freedom to extend the Rules by contract to the whole transport operation the clear legal basis for the use of electronic transport records and the flexibility with which the Rules have left room for evolving trade practices It will be of immeasurable value to practitioners and all parties interested in understanding how the new Convention operates and how the provisions are intended to be applied after the Convention comes into force Uniform Laws Annotated: Uniform commercial code forms and materials ,2007
