A typology of questions in Northeast Asia and beyond Andreas Hölzl, 2018-08-29 This study investigates the distribution of linguistic and specifically structural diversity in Northeast Asia NEA defined as the region north of the Yellow River and east of the Yenisei In particular it analyzes what is called the grammar of questions GQ i e those aspects of any given language that are specialized for asking questions or regularly combine with these The bulk of the study is a bottom up description and comparison of GQs in the languages of NEA The addition of the phrase and beyond to the title of this study serves two purposes First languages such as Turkish and Chuvash are included despite the fact that they are spoken outside of NEA since they have ties to or even originated in the region Second despite its focus on one area the typology is intended to be applicable to other languages as well Therefore it makes extensive use of data from languages outside of NEA The restriction to one category is necessary for reasons of space and clarity and the process of zooming in on one region allows a higher resolution and historical accuracy than is usually the case in linguistic typology The discussion mentions over 450 languages and dialects from NEA and beyond and gives about 900 glossed examples The aim is to achieve both a cross linguistically

plausible typology and a maximal resolution of the linguistic diversity of Northeast Asia Journal of Linguistics ,2003

 This volume published nineteen years after the Contributions on the History of Slavic Studies in Non Slavic Countries
 Beitragen zur Geschichte der Slawistik in nichtslawischen Landern Vienna 1985 Schriften der Balkankommission
 Linguistische Abteilung Bd 30 is witness to the changing concept of Slavic Studies as well as the reforms in methods and
 interests in regard to the Slavic world in a period in which Europe finds itself in massive transformation In addition to
 traditional disciplines such as linguistics literature and history areas such as sociology the fine arts and theatre and other
 interdisciplinary subjects are also dealt with Although some of the contributions in the earlier volume have not been
 continued or have only been partially brought up to date several countries that were not included are now represented with
 the first attempt at a synthesis Greece Italy Sweden Switzerland Lithuanian Estonia and Rumania Though more
 comprehensive than the first volume the second volume is a torso and not the testament of a finite period or the inventory of
 a Museum of Slavic Studies In its imperfection but ambitiousness it displays the astonishing vitality of a discipline that doesn't
 forsake its origins but incorporates all the humanities and social sciences not holding any aspect of the history of knowledge
 and its study as superfluous *Australian Slavonic and East European Studies* ,2006 **Southern African Linguistics

 to present a well balanced general view of the current state of Slavic linguistics and the Slavic languages with regard to their
 synchronic and diachronic description In contrast to previous undertakings of a similar nature this handbook is not intended
 to be a grammar with chapters on individual languages Its length the extensive scope of its subject matter the systematic
 approach and the method of description which reflect the current state of Slavic Linguistics set this handbook apart from
 others *Word* ,2003 *Siculorum gymnasium* ,2004 Current contents Arts and Humanities ,2002 **The American
