Revision 5.1.1 – January 2017

Organizations working with and in the Electronic Industry Leadership Coalition (EICC) (www.eiccoalition.org) are working to improve sustainability and social responsibility within the global supply chain.

These companies recognize a mutual responsibility to ensure working conditions are safe, workers are treated with respect and dignity, and that manufacturing practices are environmentally responsible. The Validated Audit Process is a collaborative approach to auditing to reduce the burden on supply chain companies from multiple requests for social audits. The Validated Audit Process means the world has a high quality, consistent and cost-effective standard industry assessment for labor, ethics, health, safety and environmental practices based on the EICC code of conduct, laws, and regulations.
