Chapter 6 Foundations of Business Intelligence: Databases and Information Management

The Database Approach to Data Management

- **Object-Oriented DBMS (OODBMS)**
 - Stores data and procedures as objects
 - Capable of managing graphics, multimedia, Java applets
 - Relatively slow compared with relational DBMS for processing large numbers of transactions
 - **Hybrid object-relational DBMS:** Provide capabilities of both OODBMS and relational DBMS

Chapter 9 Object Oriented Multimedia Dbms:

Engineering Informatics Benny Raphael, Ian F. C. Smith, 2013-05-29 Computers are ubiquitous throughout all life cycle stages of engineering from conceptual design to manufacturing maintenance repair and replacement. It is essential for all engineers to be aware of the knowledge behind computer based tools and techniques they are likely to encounter. The computational technology which allows engineers to carry out design modelling visualisation manufacturing construction and management of products and infrastructure is known as Computer Aided Engineering CAE. Engineering Informatics Fundamentals of Computer Aided Engineering 2nd Edition provides the foundation knowledge of computing that is essential for all engineers. This knowledge is independent of hardware and software characteristics and thus it is expected to remain valid throughout an engineering career. This Second Edition is enhanced with treatment of new areas such as network science and the computational complexity of distributed systems. Key features: Provides extensive coverage of almost all aspects of Computer Aided Engineering outlining general concepts such as fundamental logic definition of engineering tasks and computational complexity. Every chapter revised and expanded following more than ten years of experience teaching courses on the basis of the first edition. Covers numerous representation frameworks and reasoning strategies. Considers the benefits of increased computational power parallel computing and cloud computing. Offers many practical engineering examples and exercises with lecture notes available for many of the topics. Chapters from the ASCE Technical Council on Computing and Information Technology Global Centre of Excellence in Computing www.asceglobalcenter.org providing a valuable resource for lecturers. Accompanied by a website hosting updates and solutions. Engineering Informatics Fundamentals of Computer Aided Engineering 2nd Edition provides essential knowledge on computing theory in engineering contexts for students researchers and practising engineers.

Introduction to Database Management Systems: Kahate, Atul, 2006 Introduction to Database Management Systems is designed specifically for a single semester namely the first course on Database Systems. The book covers all the essential aspects of database systems and also covers the areas of RDBMS. The book in *The Principles of Business Computing* M. G. Eccles, F. W. Julyan, G. Boot, J. P. Van Belle, 2000-01-31. Written by four prominent academics this is one of South Africa's best selling computer books. It was written specifically for those managing or using computers for the first time be they accountants lawyers or other business people. It is also an ideal introduction to business computing for the commerce student.

Information Organization and Databases Katsumi Tanaka, Shahram Ghandeharizadeh, Yahiko Kambayashi, 2012-12-06 Information Organization and Databases Foundations of Data Organization provides recent developments of information organization technologies that have become crucial not only for data mining applications and information visualization but also for treatment of semistructured data spatio temporal data and multimedia data that are not necessarily stored in conventional DBMSs. Information Organization and Databases Foundations of Data Organization presents semistructured data addressing XML query languages and integrity constraints.

focusing on advanced technologies for organizing web data for effective retrieval multimedia database organization emphasizing video data organization and data structures for similarity retrieval technologies for data mining and data warehousing index organization and efficient query processing issues spatial data access and indexing organizing and retrieval of WWW and hypermedia Information Organization and Databases Foundations of Data Organization is a resource for database practitioners database researchers designers and administrators of multimedia information systems and graduate level students in the area of information retrieval and or databases wishing to keep abreast of advances in the information organization technologies

Database Directions James A. Larson, 1995 While solving numerous database management problems relational database systems are generally limited to centralized systems supporting only structured data Now Database Directions introduces database management technologies and techniques that take readers beyond the limitations of today's relational database management systems

Integrated Management of Technical Documentation Jirka Hoppe, 2012-12-06 Writing documentation is an integral part of any technical product development A significant amount of time is spent describing the product functionality giving insights into technical details providing maintenance instructions specifying marketing information writing user manuals etc As the creation of such documentation is generally a source of higher production costs many large companies are realising the need to increase the efficiency of documentation handling Simple documents consisting of only a few pages can be

developed on simple systems Basic components of such systems are an editor handling text and graphics file storage and a printer Such configurations however are not sufficient to handle professional documentation as produced by larger companies Detailed studies of technical documentation requirements have revealed that in particular the following functionality is not usually provided by such simple documentation systems Technical documentation is often very large documents having hundreds or even thousands of pages are not exceptional Due to size and complexity technical documentation is developed most often by a team of authors A system for technical documentation has to provide functionality supporting the organisation of a group of authors Technical documentation usually consists of many different documents combined into one large documentation for a particular product The optimum organisation of the storage and retrieval of documents is crucial for the performance and acceptability of the system The functionality offered by normal file systems is not adequate to organise complex systems
