Implemented from 1980 to 2006 Uganda. Ministry of Finance, Planning, and Economic Development,2007

Commercialization of Renewable Energy Technologies for Sustainable Development United Nations. Economic and Social
Commission for Asia and the Pacific,2000 Renewable energy resources are expected to play a significant role in sustainable
energy development as carbon energy supplies diminish In addition to their abundance in Asia and the Pacific renewable
energy resources have little or no adverse impact on the environment This publication takes up the theme of
commercialisation of renewable energy technologies for sustainable development in the region It is largely based on the
reports of country studies undertaken in four Asian developing countries and the resulting papers presented at the Regional
Workshop on Commercialisation of Renewable Energy Technologies and the Ad Hoc Expert Group Meeting on
Commercialisation of Renewable Energy Technologies and their Technology Transfer held in Bangkok from 11 to 12 January
and 22 to 24 September 1999 respectively *Annual Report* India. Ministry of Non-Conventional Energy Sources,2005

Climate Change Mitigation Finance for Smallholder Agriculture Leslie Lipper,2011 Building on FAO policy advice
and incorporating lessons from ongoing agricultural carbon finance projects of FAO and other organisations this document
aims to provide an overview of potential mitigation finance opportunities for soil carbon sequestration The first part provides
an overview of the opportunities for climate change mitigation from agricultural soil carbon sequestration The second part is
aimed primarily at carbon projects developers and decision makers at national level concerned with environmental and
agriculture policies and incentives and farmers associations working towards rural development and poverty alleviation
