These programs for easily searchable examples can be accessed from <http://extras.springer.com/978-1-85233-775-9>. The modules in this book are organized for quick reference. This concise reference contains a full explanation of the layout of reference entries, a brief introduction to SAP coverage of conversion and date and time modules, file and directory modules, list long texts and number modules, useful integration modules for MSOffice and pop up dialog box management.
