public administrators approach to public issues Consequently what government decides to do and how it decides to carry it out affects the lives of people and how people perceive their role in the unfolding of public affairs While public administration varies from one country to another public administrators inevitably face similar challenges Running a government is not easy it is complex dynamic contested supported subject to special interests both demand and supply driven just to name a few In executing government functions public administrators unsurprisingly contend with major decision making questions While obviously not exhaustive this book addresses some key issues challenging practitioners These challenges include questions on what gets included in the policy agenda questions on policy response to problems through adoption and or adaptation of exogenous policies questions on the dangers of displacing policy goals questions on transferring government activities to specialized agency questions on decentralizing powers to regional and local governments questions on combating corruption and questions on managing public resources It is widely recognized that policy implementation is much more challenging than its design Nonetheless it is the manner in which public administrators address these challenges that creates opportunities for a more effective long term policy prioritization design and coordination a more effective and inclusive public governance and a more effective use of public resources for the delivery of needed public services ~Aoe

Transnational Law & Contemporary Problems, 2010. [Regional Comparisons in Comparative Policy Analysis Studies](#) Iris Geva-May, B. Guy Peters, Joselyn Muhleisen, 2020-06-29. Volume Three of the Classics of Comparative Policy Analysis contains chapters concerned with Regional Comparisons and Policy Analysis, one of the most prevailing approaches in comparative public policy. Through the prism of inter-jurisdiction comparisons of similarities and variations, they address comparisons in specific policy sectors, governance or institutional constructs and political regimes. The foci are nevertheless on those comparisons between countries or regions which help to learn by identifying and understanding the variation in policy analysis and policy making that exists within or across regions. One

benefit of regional comparisons is that it often allows studies to hold constant many variables ranging from colonial legacy to federal systems or from language to specific traditions and more effectively isolate dependent variables Regional organizations like the Organization for Economic Co operation and Development OECD or European Union are also considered as catalysts for regional policy approaches and harmonization and occupy a major role in this volume The chapters address a broad and diverse number of countries and geographical areas Latin America North America East Asia Southeast Asia Southern Africa the Baltic states the Nordic states Western Europe Central Europe Eastern Europe and Europe as a whole Regional Comparisons and Policy Analysis will be of great interest to scholars and learners of public policy and social sciences as well as to practitioners considering what can be learned or facilitated through methodologically and theoretically sound approaches The chapters were originally published as articles in the Journal of Comparative Policy Analysis which in the last two decades has pioneered the development of comparative public policy The volume is part of a four volume series the Classics of Comparative Policy Analysis including Theories and Methods Institutions and Governance Regional Comparisons and Policy Sectors Each volume showcases a different new chapter comparing domains of study interrelated with comparative public policy political science public administration governance and policy design authored by the JCPA co editors Giliberto Capano Iris Geva May Michael Howlett Leslie A Pal and B Guy Peters
