FAQ & ERRATA

Welcome to the official Dropfleet Commander FAQ & Errata.

In this document you will find some fixed errors from Dropfleet's rulebook and Battle for Earth, and answers to frequently asked questions to help your games flow better. At the end you'll find helpful examples for specific rules to help with understanding the game.

This document aims to be an errata for the 1.0 version of the Dropfleet Commander rules - those printed in the paperback rulebook. The most up to date version of the rules is available as a free digital download. This document will not be updated with those changes, and is only intended for clarification on the printed rules.

Note that this document does not include changes to ship statlines. There are several instances of statlines being updated to cover errors and ships that have had their statlines updated for more balanced gameplay.

While the ships in both the Dropfleet Commander Rulebook and Battle for Earth are completely playable, you can find the most up to date version of their stat sheets in the DFC Fleet Builder and the most up to date version of the core rules at:

www.dropfleetcommander.com

This document will be periodically updated to answer questions or make changes as they come up. As such, each update will have a number and date of publishing.

Every change or question that is new to that edition of the FAQ & Errata will be marked with a star symbol.
