**New Actors and Issues in the Post-Arab Uprisings Period** Duygu Ersoy, Jülide Karakoç, 2016-05-11 The Arab uprisings that emerged in reaction to unemployment, high inflation, corruption, and the lack of liberty under authoritarian rule in the Middle East and North Africa paved the way for social and political transformations in the region. As a consequence of these uprisings, new actors have gained prominence while regional issues have become more aggravated and complicated, challenging existing national borders. The involvement of a broad range of regional and external actors in various parts of the region has created new conflicts and alliances. *New Actors and Issues in the Post-Arab Uprisings* examines how the post-Arab uprisings period with its diversity of issues and actors challenges existing policies and national borders in the Middle East. This collection provides readers with a deeper understanding of the political and social changes that are underway through diverse perspectives on various critical issues.

**The Muslim World**, 1930 *Muslims and Islamic Religion for Dummies* Kehinde Ogunmuyiwa, 2022-04-04 Islam, one of the Abrahamic faiths, originated in the 7th century following the first revelation of the Holy Quran from Allah, God, to the Prophet Muhammad. Peace be upon him. He was the last of messengers who brought the final words of Allah to humanity. Islam encompasses six articles of faith and five pillars, both of which allow Muslims to cultivate their relationship with Allah. The Holy Quran is the most important sacred scripture among them. Its message promotes a comprehensive way of life that stands for peace through submission to Allah. The belief in one God is what differentiates Islam from many of the pre-Islamic religions in Arabia. Nevertheless, worship is not limited to completing this primary act. Islam also encourages spreading compassion and justice in society. A simple gesture of generosity or empathy is also a form of adoration. Furthermore, Islam offers guidance on many other matters of life, including diet, dressing, business, legal issues, marriage, etc. This book provides readers with a concise and straightforward explanation of what Islam is, its origins, and the core components and principles under which it was founded. They will go through the historical and sociological concerns of the religion while tackling important questions: What is Islam? How did it begin? Who is a Muslim, and what makes up faith for them? But why this book? I wrote this piece because there are still many people who have no knowledge about Islam and are puzzled by the countless works that exist about the subject. It is meant to be a starting point.

the introduction to Islam from a holistic but simple approach That said the book s main goal is for readers to achieve a better understanding of the nature and key concepts of this religion In this sense it explains the central themes of Islam I hope that after reading this book readers can appreciate Islam and approach Muslims more adequately

*The Bulletin of the Henry Martyn School of Islamic Studies* ,1946 **The Big Lie** David Solway,2007 Comprises two lengthy essays explicating Solway s response to the attacks of 9 11 which caused him to reassess his dogmatic left liberal anti American and anti Zionist worldview The first essay reflects on the threat posed to Western civilization by a militant Islam a theologically inspired terrorist movement and on the ideological capitulation of the liberal and democratic West vis vis this threat The second essay On Being a Jew pp 89 244 discusses the meaning of Judaism the complex nature of Islam the demonology of antisemitism as directed against the Jewish diaspora in Europe especially and the Jewish state and the Middle East conflict Warns that terror and antisemitism are intimately related and the weakness of the West s response to the former and the waxing strength of the latter are indicators that we are living in a faltering society Muslim hostility toward the Jews and Israel is centuries old and not simply a reaction to the founding of the State of Israel in 1948 The real conflict in the Middle East is not over borders or Palestinian self determination but over the right of the Jewish people to exercise its sovereignty in its ancestral homeland Deplores the fact that not only has the Islamic world adopted Western antisemitism but the West is also adopting Islamic style antisemitism disguised as anti Zionism and is blind to the danger it poses to everything the West stands for
