**Liangyou, Kaleidoscopic Modernity and the Shanghai Global Metropolis, 1926-1945** Paul Pickowicz, Kuyi SHEN, Yingjin ZHANG, 2013-11-11 This collection of original essays explores the rise of popular print media in China as it relates to the quest for modernity in the global metropolis of Shanghai from 1926 to 1945. It does this by offering the first extended look at the phenomenal influence of the Liangyou pictorial *The Young Companion*, arguably the most exciting monthly periodical ever published in China. Special emphasis is placed on the profound social and cultural impact of this glittering publication at a pivotal time in China. The essays explore the dynamic concept of kaleidoscopic modernity and offer individual case studies on the rise of art photography, the appeals of slick patent medicines, the resilience of female artists, the allure of aviation celebrities, the feistiness of women athletes, representations of modern masculinity, efforts to regulate the female body and female sexuality, and innovative research that locates the stunning impact of Liangyou in the broader context of related cultural developments in Tokyo and Seoul. Contributors include Paul W. Ricketts, Timothy J. Shea, Emily Baum, Maura Elizabeth Cunningham, Jun Lei, Amy O. Keefe, Hongjian Wang, Ha Yoon Jung, Lesley W. Ma, Tongyun Yin, and Wang Chuchu.

**Photography Fifth Edition** Mary Warner Marien, 2021-06-24 The fifth edition of this indispensable history of photography spans the history of the medium from its early development to current practice and providing a focused understanding of the cultural contexts in which photographers have lived and worked throughout. This remains an all-encompassing survey. Mary Warner Marien discusses photography from around the world and through the lenses of art, science, travel, war, fashion, the mass media, and individual photographers. Professional, amateur, and art photographers are all represented with Portrait boxes devoted to highlighting important individuals and Focus boxes charting particular cultural debates. Mary Warner Marien is also the author of *100 Ideas that Changed Photography* and *Photography Visionaries*. New additions to this ground-breaking global survey of photography include 20 new images and sections on advances in technology and the influence of social media platforms. An essential text for anyone studying photography.

[Framing Portraits, Binding Albums](#) Shilpi Goswami, Suryanandini Narain, (eds.), 2025-01-06 Long neglected in academic discourse in India, family photographs make a silent contribution to the histories of photography, marginality, and the family. In this volume, the writers dwell on the importance of family photographs and their visual omnipresence in our daily lives. They point out how family photographs have belonged to the vernacular material of visual culture, more seen and lived with, less written and consciously thought about. Attempting to retrieve family photographs from a space of neglect, this volume demonstrates how they are fundamental to the microhistories of a nation and its many societies and suggests the importance of such counterarguments to the dominant strains in an emerging discursive space. The essays do not offer a comprehensive survey of all types of family photographs in India. Instead, they present focused insights into chosen areas of interest on the part of the writers. Collectively, they embrace the intersectionalities of gender, caste, class, and regional trajectories, making the

politics of representation even more layered with contestations between the historical oral and affective memorialisation surrounding family archives and photographs These concerns centrally inform the essays as they accept and negotiate a terrain shared by all types of narrativisation *Popular Photography* ,1995-03 **The Photographic Journal** ,1985 Vols for 1853 include the transactions of the Royal Photographic Society of Great Britain **Photography** Mary Warner Marien,2002 A survey of international photography that examines the work of both professionals and amateurs The emphasis is more on key ideas than individuals with debates on topics such as the nature of discovery invention the effect of mass media on morality and photography s role in radical politics *International Photo Technik* ,1962 *Collier's Year Book* ,1956 **Monthly Catalogue, United States Public Documents** ,1985-07 **Resources in Education** ,1989 *Collier's ...
