A Year To Live:

A Year to Live Stephen Levine,1998 For our society obsessed with a struggle against mortality this remarkable book steers us toward an earthiness and humility necessary for a full life

A Year to Live Stephen Levine,2009-10-07 Stephen Levine has worked creatively to help thousands of people approach their own deaths with equanimity truth and an open heart I can think of no one better qualified to help us enrich our lives through embracing the mystery of death Ram Dass A Year to Live is a poetic and deeply passionate exploration into what creates human suffering It is also a lyrical and generous spirited guide to life San Francisco Examiner In A Year to Live Stephen Levine author of the perennial bestseller Who Dies teaches us how to live each moment each hour each day mindfully as if it were all that was left On his deathbed Socrates exhorted his followers to practice dying as the highest form of wisdom Levine decided to live this way himself for a whole year and now he shares with us how such immediacy radically changes our view of the world and forces us to examine our priorities Most of us go to extraordinary lengths to ignore laugh off or deny our grief over the fact that we are going to die but preparing for death is one of the most rational and rewarding acts of a lifetime It is an exercise that gives us the opportunity to deal with unfinished business and enter into a new and vibrant relationship with life Levine provides us with a year long program of intensely practical strategies and powerful guided meditations to help with this work so that whenever the ultimate moment does arrive for each of us we will not feel that it has come too soon

5 Words to Overcome Writers Block: A Journey for the Sick and Twisted Mind Alex Willis,Christina Naftis,2011-12-08 There are two sides to every story any good writer can tell you that Well we took this quite literally Our writers were struggling with writers blocks on their individual books and needed to find a way to get past it What they did was as unusual as this book First they took a scientific approach to understanding the reason for the block and identified methods to modify the causes Second they exercised their

minds by free telling stories without regard to decency spelling or grammar As our authors are humorists the stories are intended to be funny You can clearly see how the stories morph as the writers blocks decrease Now this book is split in hard copy it makes more sense on the left side of the book which is seen by the right and free thinking part of the brain are the crazy stories on the other side of the book is the science of overcoming writers block This book is not for the weak of heart and the content is intended strictly for a mature audience
