official documents and having a grasp of the means of intellectual self defense This book is non standard it relies on the most sophisticated theories of language and yet it gives everything in simple and colloquial language Differently from sophisticated analyses of linguistic phenomena it gives the feeling of participating in a tour around what happened in the last decade with a disenchanted eye that uses some results of the critical literature without compelling one to become a theoretician in the field of philosophy or critical analysis The hidden focus of the book is freedom of speech and freedom of thought and what they mean today in an era of more sophisticated and widespread disinformation permitted by the algorithms governing social networks

The Illuminati Mark Dice,2009 Secret societies have both fascinated and frightened people for hundreds of years Often the infamous Illuminati is mentioned as the core of conspiracies which span the globe The Illuminati is actually a historical secret society which had goals of revolutions and world domination dating back to the 1770s Since then rumors and conspiracy theories involving the Illuminati continue to spread sometimes finding their way into popular novels like Dan Brown s *Angels Demons* and Hollywood movies like *Lara Croft Tomb Raider* Some men have even come forward claiming to be former members offering details of what they allege are the inner workings of the organization When you sift through all of the information available on the subject you may be surprised that the truth is stranger than fiction In *The Illuminati Facts Fiction* conspiracy and occult expert Mark Dice separates history from Hollywood and shows why tales of the secret society won t die
