Contemporary Communication Systems Using Matlab Solution Manual:

Contemporary Communication Systems Using MATLAB John G. Proakis, Masoud Salehi, 2000 This supplement to any standard communication systems text is one of the first books to successfully integrate the use of MATLAB in the study of communication systems concepts and problems It has been developed for instructors and students who wish to make use of MATLAB as an integral part of their study The former will find the means by which to use MATLAB as a powerful tool to motivate students and illustrate essential theory without having to customize the applications themselves the latter will find relevant problems quickly and easily The book includes numerous MATLAB based simulations and examples of communication systems while providing a good balance of theory and hands on computer experience This Updated Printing revises the book and MATLAB files available for downloading from the Brooks Cole Bookware Companion Resource Center Web Site to MATLAB V5

My Life and Work Dr. Matthew N. O. Sadiku, 2018-09-14 In this book Dr Matthew N O Sadiku has shared the amazing story of how he rose from his humble beginnings in Nigeria He described how he was raised in a Muslim home After his conversion to Christianity his drive led him to relocate to the United States for advanced degrees He has provided a text that is lively from beginning to the end The book provides a good understanding of his life thought and work You will learn about what it takes to be a mover and shaker for God as you see Sadiku traverse the nation rising to success in the academic and publishing worlds The book is an essential reading for those interested in the genesis of greatness
