Urban Facility Management Jan Veuger,2026-02-19 This is the first interdisciplinary book on a holistic approach to Urban Facility Management UFM based on recent scientific insights and analysis over a defined period of eight years of research With this book I would like to share insights on UFM together with several other authors and specialists worldwide The book covers what is UFM the added value of UFM the results of eight years of scientific research and finally how can we face the future of UFM UFM adds value by developing sustainable resilient and vibrant cities that improve the quality of life for residents UFM promotes economic growth and ensures efficient and effective use of resources Through comprehensive management of real estate infrastructure and public spaces UFM contributes to future proof cities that balance economic progress environmental protection and social cohesion The future of urban planning will increasingly depend on UFM s role in shaping urban environments that respond to the challenges of the 21st century including climate change population growth and technological innovations

Blockchain in Global Land Registries Pablo L. Reiser,Michael Trübestein,Matthias Daniel Aepli,2026-03-12 This book explores the theory practice gap in applying blockchain to land registries by examining four case studies Sweden Georgia Ghana and India where blockchain based land registry initiatives have been implemented or piloted Through comparative analysis it identifies recurring legal institutional and infrastructural barriers that have hindered progress as well as enabling conditions that have supported partial success Designed for scholars policymakers and practitioners in land governance legal reform and digital transformation this study contributes to the growing literature on blockchain in public administration It moves beyond theoretical promises to assess how and under what conditions blockchain can meaningfully support land administration reform in diverse global contexts Land registries are foundational institutions intended to ensure legal certainty facilitate property transactions and reduce disputes Yet in many jurisdictions they remain plagued by inefficiency opacity and limited public trust While blockchain technology has been widely proposed as a remedy offering transparency immutability and decentralization empirical evidence on its actual impact remains scarce
