Lacan in Public Christian Lundberg, 2012-11-26 Lacan in Public argues that Lacan's contributions to the theory of rhetoric are substantial and revolutionary and that rhetoric is in fact the central concern of Lacan's entire body of work. Scholars typically cite Jacques Lacan as a thinker primarily concerned with issues of desire, affect, politics, and pleasure. And though Lacan explicitly contends with some of the pivotal thinkers in the field of rhetoric, rhetoricians have been hesitant to embrace the French thinker both because his writing is difficult and because Lacan's conception of rhetoric runs counter to the American traditions of rhetoric in composition and communication studies. Lacan's conception of rhetoric. Christian Lundberg argues in *Lacan in Public* upsets and extends the received wisdom of American rhetorical studies that rhetoric is a science rather than an art that rhetoric is predicated not on the reciprocal exchange of meanings but rather on the impossibility of such an exchange and that rhetoric never achieves a correspondence with the real world circumstances it attempts to describe. As Lundberg shows, Lacan's work speaks directly to conversations at the center of current rhetorical scholarship, including debates regarding the nature of the public and public discourses, the materiality of rhetoric and agency, and the contours of a theory of persuasion.

Memory, Consciousness and Temporality Gianfranco Dalla Barba, 2001-09-30 *Memory, Consciousness and Temporality* presents the argument that current memory theories are undermined by two false assumptions: the memory trace paradox and the fallacy of the homunculus. In these pages, Gianfranco Dalla Barba introduces a hypothesis: the Memory, Consciousness and Temporality (MCT) hypothesis on the relationship between memory and consciousness that is not undermined by these assumptions and further demonstrates how MCT can account for a variety of memory disorders and phenomena. With a unique approach intended to conjugate phenomenological analysis and recent neuropsychological data, the author makes an important contribution to our understanding of the central issues in current cognitive science and cognitive neuroscience.

Merger Mania Andrew Sancton, Westmount (Québec), 2000 The idea that merging municipalities will improve local services and economic competitiveness has its roots deep in the nineteenth century. Municipalities in the US were first merged as early as 1848. However, despite being merged at the turn of the twentieth century, the city of New York was effectively bankrupt by 1975. In contrast, metropolitan Boston, often seen as a recent success story in global competition, comprises 282 distinct municipalities. Outside the United States, forced municipal mergers were a popular policy in many European countries and Canadian provinces during the 1960s and 1970s. The city of Laval, just north of Montreal, and the unicity of Winnipeg owe their origins to this period; both amalgamations failed to meet their original objectives. Despite the emergence of public choice theory, which justifies municipal fragmentation on market principles, some politicians and public servants in the 1990s have continued to advocate municipal amalgamations as a means of reducing public expenditure, particularly in Ontario. In *Merger Mania*, Andrew Sancton demonstrates that this approach has generally not saved money. He examines the history of amalgamation as well as studying recent forced municipal mergers in Halifax.

Toronto Ottawa Hamilton and Sudbury In the concluding chapter he examines the case for municipal amalgamation on the Island of Montreal and argues that those who would abolish locally elected municipal councils are obligated to explain very carefully especially in light of evidence to the contrary exactly why they think such drastic measures are necessary A compelling examination of a timely issue Merger Mania is a must read for anyone interested in the politics of city governments Andrew Sancton is professor of political science at University of Western Ontario and the author of several books on city politics
