The latest publication by designer Kenya Hara following his acclaimed *Designing Design* *White* is not a book about color It is rather the author's attempt to explore the essence of white which he sees as being closely related to the origin of Japanese aesthetics symbolizing simplicity and subtlety The central concepts discussed are emptiness and the absolute void Kenya Hara also sees his work as a designer as a pure form of communication Good communication has the distinction of being able to listen to each other rather than to press one's opinion onto the opponent Kenya Hara compares this form of communication with an empty container In visual communication there are equally signals whose signification is limited as well as signals or symbols such as the cross or the red circle on the Japanese flag which like an empty container permit every signification and do not limit imagination It is not only the fact that the Japanese character for white forms a radical of the character for emptiness that has prompted him to closely associate the color white with the state of emptiness This book offers a personal insight into the philosophy of the successful designer and author of *Designing Design* *Design by Nature* Maggie Macnab,2011-09-22
