Medicine of the Imagination: Dwelling in Possibility Imelda Almqvist,2020-10-30 The human imagination gives rise to the most beautiful man made structures and creations on Earth architecture literature theatre music art humanitarian initiatives moon landings and space exploration mythology science they all require a large dose of imagination We all live surrounded by the results of the imagination of our peers and the creations of our ancestors Without imagination there is no compassion no moral compass and no progress But without imagination there is also no fear of death There are no premeditated murders or terrorist attacks these rely on the human ability to imagine to call up images and test drive possible scenarios in the human mind Once we get out the magnifying glass we discover that the imagination is a double edged sword All of us together humanity as a collective are creating very confused and mixed outcomes world peace remains elusive wars rage and children starve Addictions and pollution proliferate Medicine of the Imagination Dwelling in Possibility examines these issues and suggests that if we are to transcend religious wars homophobia and medical cures worse than the diseases we face then it that it is our moral duty to engage our imagination in service to other people
