Science Fiction Video Games Neal Roger Tringham, 2014-09-10 Understand Video Games as Works of Science Fiction and Interactive Stories Science Fiction Video Games focuses on games that are part of the science fiction genre rather than set in magical milieux or exaggerated versions of our own world Unlike many existing books and websites that cover some of the same material this book emphasizes critical analysis especially the analysis of narrative The author analyzes narrative via an original categorization of story forms in games He also discusses video games as works of science fiction including their characteristic themes and the links between them and other forms of science fiction Delve into a Collection of Science Fiction Games The beginning chapters explore game design and the history of science fictional video games The majority of the text deals with individual science fictional games and the histories and

natures of their various forms such as the puzzle based adventure and the more exploratory and immediate computer role playing game RPG *Transmedia Storytelling and the Apocalypse* Stephen Joyce,2018-08-21 This book confronts the question of why our culture is so fascinated by the apocalypse It ultimately argues that while many see the post apocalyptic genre as reflective of contemporary fears it has actually co evolved with the transformations in our mediascape to become a perfect vehicle for transmedia storytelling The post apocalyptic offers audiences a portal to a fantasy world that is at once strange and familiar offers a high degree of internal consistency and completeness and allows for a diversity of stories by different creative teams in the same story world With case studies of franchises such as The Walking Dead and The Terminator *Transmedia Storytelling and the Apocalypse* offers analyses of how shifts in media industries and reception cultures have promoted a new kind of open world building narrative across film television video games and print For transmedia scholars and fans of the genre this book shows how the end of the world is really just the beginning **Crash**

Course in Gaming Suellen S. Adams,2013-11-25 Video games aren t just for kids anymore This book will describe the why and how to start or expand a video gaming program in the library including some specific examples of how to target adult and female gamer patrons Gaming supplies more than just visual stimulation and empty entertainment it can also promote socialization as well as the learning of both traditional and new literacies required to succeed in the modern world Problem solving multi tasking complex decision making on the fly and reading the combination of words and graphics are vital skills for the 21st century all of which are required to play video games *Crash Course in Gaming* discusses the pros and cons of gaming the types of games and game systems circulating collections and game programs It explains how a library s video game program can and should do much more than simply draw younger users to the library providing examples of how everyone from parents to senior citizens can benefit from a patron oriented computer gaming program The appendices also include specific games programs review sources and sources for further information **Deus Ex, Der Icarus-Effekt** James

 NOT THE END OF THE WORLD BUT YOU CAN SEE IT FROM HERE In the near future with physical augmentation gaining
 ground and nano cybernetics only years away the dawn of limitless human evolution is just beyond the horizon and a secret
 corporate cabal of ruthless men intends to make sure that humankind stays under its control But two people on opposite
 sides of the world are starting to ask questions that could get them killed Secret Service agent Anna Kelso has been
 suspended for investigating the shooting that claimed her partner s life Anna suspects that the head of a bio augmentation
 firm was the real target and against orders she s turned up a few leads concerning a covert paramilitary force and a cadre of
 underground hackers But the cover up runs deep and now there s a target on her back Meanwhile Ben Saxon former SAS
 officer turned mercenary joins a shadowy special ops outfit They say they re a force for good but Saxon quickly learns that
 the truth is not so clear cut So begins a dangerous quest to uncover a deadly secret that will take him from Moscow to
 London D C to Geneva and to the dark truth if he lives that long The year is 2027 in a world consumed by chaos and
 conspiracy two people are set on a collision course with the most powerful and dangerous organization in history and the fate
 of humanity hangs in the balance **Circulating Film Library Catalog** Museum of Modern Art (New York, N.Y.).
