**Talent Gap** Jennifer Priestley, Robert McGrath, 2021-05-04 How can we recruit out of your program We have a project how  
do we reach out to your students If we do research together who owns it We have employees who need to upskill in analytics  
can you help me with that How much does all of this cost Managers and executives are increasingly asking university  
professors such questions as they deal with a critical shortage of skilled data analysts At the same time academics are asking  
such questions as How can I bring a real analytical project in the classroom How can I get real data to help my students  
develop the skills necessary to be a data scientist Is what I am teaching in the classroom aligned with the demands of the  
market for analytical talent After spending several years answering almost daily e-mails and telephone calls from business  
managers asking for staffing help and aiding fellow academics with their analytics teaching needs Dr Jennifer Priestley of  
Kennesaw State University and Dr Robert McGrath of the University of New Hampshire wrote Closing the Analytics Talent  
Gap An Executive's Guide to Working with Universities The book builds a bridge between university analytics programs and  
business organizations It promotes a dialog that enables executives to learn how universities can help them find strategically  
important personnel and universities to learn how they can develop and educate this personnel Organizations are facing  
previously unforeseen challenges related to the translation of massive amounts of data structured and unstructured static  
and in motion voice text and image into information to solve current challenges and anticipate new ones The advent of  
analytics and data science also presents universities with unforeseen challenges of providing learning through application  
This book helps both organizations with finding data natives and universities with educating students to develop the facility  
to work in a multi-faceted and complex data environment *Science*, 1919 Vols for 1911-13 contain the Proceedings of the
