- your stress levels at the time
- the type and strength of alcohol
- whether you've taken medication
- whether you have also taken any illegal drugs.

7. Sleep helps your body break down alcohol quicker – true or false?

False.

Your liver is responsible for breaking down alcohol and sleep has no influence on the time this takes. Alcohol does affect the quality of your sleep, stopping you from spending as much time in dream sleep. This can make you feel more tired the day after drinking.
