**Reflections on the Malaysian Economy Post-GE 14 : Issues and Challenges (UUM Press)** Irwan Shah Zainal Abidin, 2021-10-03 The victory of the Pakatan Harapan PH or the Alliance of Hope on May 9 2018 in the Malaysian 14th General Election GE14 was not just stunning but historic Moreover the second comeback of Tun Dr Mahathir Mohamad as the seventh Prime Minister of Malaysia was indeed impressive The results of the GE14 were clearly against the tide as many political pundits and analysts had predicted a win for the Barisan Nasional BN coalition with differences only in matters of margins Similar to Malaysia's 13th General Election GE13 which was held on May 5 2013 the main issue in the GE14 was also about the economy The rise in cost of living was perhaps the mother of all issues which caused the downfall of the BN government for the first time since independence Other crucial economic issues centered on alleged corruption practices and manifested through the 1Malaysia Development Berhad 1MDB saga As a new federal power for 22 months the PH government had a daunting task not just to address economic issues mentioned above but also the other alleged economic problems which they had highlighted in their election manifesto On top of that the PH government had the responsibility to maintain if not to improve further what the BN government had done to the Malaysian economy in the past of which World Bank economists described as a success story a very strong economy and growing towards a high income Post GE14 what is the state of the Malaysian economy and its direction What

are lessons that can be learned from the PH economic management And with the Perikatan Nasional PN government succeeding the federal power in March 2020 in the midst of the Covid 19 pandemic what are the pressing issues and what needs to be done moving forward especially in the context of the economic challenges arising from the pandemic and post Covid 19 era These are some critical questions which this book is trying to address The book essentially argues for the need to give greater focus to economic issues above anything else by envisioning a new national vision and engineering a new wave of economic structural reforms primarily based on insights from the vast Malaysian economic history lessons

**Inequality in Zambia** Caesar Cheelo, Marja Hinfelaar, Manenga Ndulo, 2022-01-31 Coming together from across several disciplines the contributors to this book reflect on the considerable problem of inequality in Zambia comparing it with other countries both in the region and more broadly The World Bank consistently ranks Zambia among the countries with the highest levels of poverty and inequality globally but the problem is not widely studied and the studies that do exist tend to focus solely on economic measures of inequality This book uses a multidimensional analysis of inequalities highlighting the ways in which certain social groups and geographical locations are more likely to suffer multiple inequalities It investigates key issues around poverty healthcare income law disability and power inequalities Particularly showcasing the work of local researchers this book will be of interest to researchers of African studies development economics and politics The Myanmar Economy Konosuke Odaka, 2015-11-11 With motivated human resources and a rich natural bounty Myanmar is expected to take off with sustained growth and eventually attain a unique welfare state On the basis of the authors field surveys and innumerable dialogues with public officials private professionals scholars and others in addition to intensive desk studies since around 2000 the present volume lays out the essential ingredients for drawing a roadmap to realise the above mentioned objective That goal is specifically financial development adequate social capital indigenous modern manufactures and closer international tie ups among others but above all sound agrarian development An effort has been made to place the required ingredients in their historical contexts as historical experiences constitute an important sociopolitical condition in which development takes place Myanmar nationals and readers concerned with the country s economic progress are encouraged to give serious sustained thought to coming up with a socially supportable roadmap for the country s development path The present volume provides valuable hints for that purpose **Economic Development** Michael P.
