

# Chapter 1: What is Economics

- |  |                                 |
|--|---------------------------------|
| 1. Distribute scarce resources - such as money, land, equipment, or labor  | A. Consumer                     |
| 2. The direct exchange of goods & services without use of money.   | B. opportunity cost             |
| 3. Buildings, structures, machines, or tools that are used to produce goods or services.   | C. Division of Labor            |
| 4. Items that are used in the production of other goods & services   | D. specialization               |
| 5. Finished products that are consumed by an individual.   | E. goods                        |
| 6. The ones who buy goods or services for personal use rather than for resale or use in production or manufacturing.                                   | F. Entrepreneur                 |
| 7. Form of exchange that allows consumers to use items with a promise of repayment over a specified time.  | G. microeconomics               |
| 8. Division of a complex procedure into small tasks, enabling workers to increase output through specialization.                                       | H. scarcity                     |
| 9. Study of how society chooses to use scarce resources to satisfy its unlimited wants & needs.  | I. Natural Resource             |
| 10. Someone who studies economic theory and applies it to the real world.  | J. Credit                       |
| 11. The production of goods & services using the smallest amounts of resources for the greatest amount of output.                                      | K. factor of production         |
| 12. Someone who undertakes and develops a new business enterprise or develops a new product  | L. Allocate                     |
| 13. A resource used to produce goods & services.   | M. productivity                 |
| 14. Objects or materials that can be purchased to satisfy human wants or needs   | N. Capital Resources            |
| 15. Study of an entire economy or one of its principal sectors.  | O. Capital Goods                |
| 16. Study of a single factor of an economy - such as individuals, households, businesses, & industries - rather than an economy as a whole.            | P. economics                    |
| 17. Any material provided by nature that can be used to produce goods or provide services.   | Q. producer                     |
| 18. Value lost by rejecting one use of resources in favor of another. In other words, the value of the next-best alternative action that is not taken. | R. Consumer Goods               |
| 19. A person, group, or business that makes goods or provides services to satisfy consumers' needs and wants.  | S. economist                    |
| 20. Graphic representation showing all of the possible combinations of two goods or services that can be produced in a stated period.                  | T. trade-off                    |
| 21. The level of output that results from a given level of input.  | U. barter                       |
| 22. The focus of a worker on only one or a few aspects of production in order to improve efficiency.   | V. Production Possibility Curve |
| 23. Scientific & technical techniques used to produce existing products more efficiently or of higher quality.   | W. macroeconomics               |
| 24. The sacrifice of one good in order to purchase or produce another  | X. Technology                   |
| 25. Fundamental condition of economics that results from the combination of limited resources and unlimited wants.                                     | Y. efficiency                   |
