Unit 6: Vocabulary

Most of us feel that our lack of second language vocabulary is an obstacle to more effective communication and comprehension. Although some students seem to pick up English vocabulary easily, the evidence from research is that learning new words and structures of another language requires **conscious mental effort**.

We also tend to get frustrated because we can't recall the right words **when we need to produce them**, even though we are able to recognise the same words when we read or hear them.

*Recall is influenced by events or processes at various stages of memory. Three stages can conveniently be distinguished: **intake, storage and retrieval.***

(McDonough 1981:66, emphasis added)

Retrieval includes both *recognition* of words when we hear or read them, and *recall* – the ability to produce appropriate words (often referred to as 'active vocabulary'). These stages can be shown in a diagram:
