Historiographies of Game Studies Alisha Karabinus, 2025-07-25 **Historiographies of Game Studies** offers a first of its kind reflection on how game studies as an academic field has been shaped and sustained Today game studies is a thriving field with many dedicated national and international conferences journals professional societies and a strong presence at conferences in disciplines like computer science communication media studies theater visual arts popular culture and others But when did game studies start And what and who is at the core or center of game studies Fields are defined as much by what they are not as by what they are and their borderlands can be hotly contested spaces In this anthology scholars from across the field consider how the boundaries of game studies have been established codified contested and protected raising critical questions about who and what gets left out of the field Over more than two dozen chapters and interviews with leading figures including Espen Aarseth Kishonna Gray Henry Jenkins Lisa Nakamura Kentaro Matsumoto Ken McAllister and Janet Murray the contributors offer a dazzling array of insightful provocations that address the formation propagation and cultivation of game studies interrogating not only the field's pasts but its potential futures and asking us to think

deliberately about how academic fields are collectively built
