K. Ghauri, Omar Masood, 2015-02-05 It has taken over five centuries for banking to evolve to its present state and the concept of interest is undoubtedly the life blood of the whole financial system Interest was religiously prohibitive for centuries in several faiths such as Buddhism and Hinduism Judaism Christianity and Islam and was also strongly opposed by neo classical economists in the 1930s Interest riba is still outlawed in Islam with the term riba eater being one of the cruellest insults Islamic scholars have explained that the current practice of contracts without interest is a result of following the jurisprudence laid in the Quran and Sunnah of Prophet Mohammad sallallahu alayhi wa sallam As such this mode of banking and finance without riba is recognised as Islamic banking This name has often been criticised by scholars as there is no philosophy of banking in Islamic teachings Consequently some of the banks that follow these regulations have adopted other names such as savings banks and finance houses This book explains the philosophies behind the current trend in riba free banking which is implemented as Islamic banking around the world The book is divided into five sections the first of which is related to the introduction of riba free banking The second is related to the fundamentals concepts and beliefs of riba free banking organisations while the third differentiates between two streams of financial models The fourth section explains risk management in riba free banking while the final section discusses international institutions related to the riba free financial system The book also contains a glossary of terms related to riba free banking and a terms index for reader s ease in academic study Bayero Business Review ,2003 **Islamic Finance: Instruments and Markets** Bloomsbury Publishing, 2010-11-15 Islamic Finance covers the application of Sharia law to the world of banking and finance and provides the reader with an understanding of the rationale behind the instruments and the development of Islamic financial markets **QFinance** ,2009-10-13 Compiled by more than 300 of the world s leading professionals visionaries writers and educators this is THE first stop reference resource and knowledge base for finance QFINANCE covers an extensive range of finance topics with unique insight authoritative information practical guidance and thought provoking wisdom Unmatched for in depth content QFINANCE contains more than 2 million words of text data analysis critical summaries and bonus online content Created by Bloomsbury Publishing in association with the Qatar Financial Centre QFC Authority QFINANCE is the expert reference resource for finance professionals academics students journalists and writers QFINANCE The Ultimate Resource Special Features Best Practice and Viewpoint Essays Finance leaders experts and educators address how to resolve the most crucial issues and challenges facing business today Finance Checklists Step by step guides offer problem solving solutions including hedging interest rate risk governance practices project appraisal estimating enterprise value and managing credit ratings Calculations and Ratios Essential mathematical tools include how to calculate return on investment return on shareholders equity working capital productivity

Johnson,1993 Designed for undergraduate finance students this text addresses how financial institutions have evolved and why they are changing Although mathematical formulae are included Johnson s book is more descriptive than analytical and it establishes the link between financial institutions and economic development **New Horizon** ,2007 **The Muslim World Book Review** ,2007

**Islamic Banking** Mervyn Lewis,Latifa M. Algaoud,2001 The prohibition of interest is the feature of Islamic banking which most distinctly sets it apart from conventional banking To Western eyes this seems a strange restriction but Christian countries themselves maintained such a ban for 1 400 years Islamic Banking asks why Islam has been able to maintain its stand The book explores the intricacies of Islamic law and the religious and ethical principles underpinning Islamic banking It then considers the analytical basis of Islamic banking and financing in the light of modern theories of financial intermediation and identifies the conceptual issues to be overcome Following case studies of the operations of Islamic banks in Bahrain Bangladesh Egypt Jordan Malaysia and Australia along with Iran Pakistan and Sudan the volume concludes that many of the criticisms of their activities seem misplaced It argues that the factors governing success are the distinctive

system of corporate governance and continued product innovation The book ends by considering four such innovations Islamic investment banking and project finance Islamic insurance Islamic securities and the formation of a pan Islamic international financial centre This pathbreaking volume the first to consider Islamic banking and finance from a global perspective will be of great interest to scholars of money and banking international finance and Middle Eastern studies
