Myth Retelling Novel Framework:

The Science Fiction Handbook M. Keith Booker, Anne-Marie Thomas, 2009-03-30 The Science Fiction Handbook offers a comprehensive and accessible survey of one of the literary world's most fascinating genres. Includes separate historical surveys of key subgenres including time travel narratives, post-apocalyptic and post-disaster narratives, and works of utopian and dystopian science fiction. Each subgenre survey includes an extensive list of relevant critical readings, recommended novels in the subgenre, and recommended films relevant to the subgenre. Features entries on a number of key science fiction authors and extensive discussion of major science fiction novels or sequences. Writers and works include Isaac Asimov, Margaret Atwood, George Orwell, Ursula K. Le Guin, *The War of the Worlds* (1898), *Starship Troopers* (1959), *Mars Trilogy* (1993-6), and many more. A Science Fiction Glossary completes this indispensable Handbook. **'My Mother was the Earth, My Father was the Sky'** Nadia Majid, 2010 This study brings together three closely related aspects of Maori literature: myth, memory, and identity. It examines selected novels by Witi Ihimaera and Patricia Grace in order to trace an ever-developing Maori identity that has changed considerably over three decades of the Maori novel. This book demonstrates that an investigation of the construction of identity in literature benefits from a close look at the importance of Maori mythology as well as associated cultural and individual memories. Indicating that Maori fiction has become what Homi Bhabha terms a third space, this book verifies the links between novel, myth, and memory with the help of existing research in these areas in order to assess their importance for the reinterpretation of identity. The Maori novels that depict situations reflecting current issues are viewed as an experimental playground in which authors can explore a variety of solutions to tribal, societal, and political issues. This study establishes the early novels as reinterpretations of the past and guides to the future, and characterises the more recent novels as representing a move towards empowerment and pioneering that has not yet come to a conclusion. **Impending Inquisitions in Humanities and Sciences** Mohan Varkolu, MP Malleesh, Kranthi Priya Oruganti, 2024-07-22 In an era of increasing specialization, the need for cross-disciplinary dialogue demands an integrated approach that transcends the artificial boundaries between disciplines. *Impending Inquisitions in Humanities and Sciences* presents a groundbreaking tapestry of cutting-edge research across the spectrum of humanities and sciences. This volume presents a meticulously curated selection of research papers presented at the conference, a forum where scholars from diverse fields—English, Mathematics, Physics, and Chemistry—converged to engage in rigorous dialogue and push the boundaries of knowledge. From the nuanced interpretations of literary texts to the elegant formulations of mathematical models, from the awe-inspiring revelations of physics to the meticulous experiments of chemistry, each contribution challenges assumptions and provokes fresh perspectives. This collection serves as a valuable resource for scholars, students, and academic fraternity with an insatiable curiosity about the world around us. **Conflict Refugees** Christel Querton, 2023-08-10 Uncovers judicial approaches to refugee law across the European Union in the cases of refugees fleeing armed conflicts. **International**
