Practical Guide For Translation:

A Practical Guide for Translators Geoffrey Samuelsson-Brown, 2010-03-24 This is the fifth revised edition of the best selling *A Practical Guide for Translators*. It looks at the profession of translator on the basis of developments over the last few years and encourages both practitioners and buyers of translation services to view translation as a highly qualified skilled profession and not just a cost led word mill. The book is intended principally for those who have little or no practical experience of translation in a commercial environment. It offers comprehensive advice on all aspects relevant to the would be translator and whilst intended mainly for those who wish to go freelance it is also relevant to the staff translator as a guide to organisation of work and time. Advice is given on how to set up as a translator from the purchase of equipment to the acquisition of clients. The process of translation is discussed from initial enquiry to delivery of the finished product. Hints are given on how to assess requirements, how to charge for work, how to research and use source material and how to present the finished product. Guidance is given on where to obtain further advice and professional contacts. This revised edition updates practices in the translation profession and considers the impact of web based translation offerings. Industry and commerce rely heavily on the skills of the human translator and his ability to make intellectual decisions that is as yet beyond the capacity of computer aided translation.

Literary Translation Clifford E. Landers, 2001 Clifford Landers provides both beginning and experienced translators with pragmatic techniques for dealing with problems of literary translation whatever the original language. Finding an outlet for one's translations is also covered.

A Practical Guide for Translators Geoffrey Samuelsson-Brown, 2010 Latest edition of the successful best seller that views commercial translation from the translator's and customer's viewpoints.

Corpora in Translation

Tengku Sepora, Tengku Mahadi, Helia Vaezian, Mahmoud Akbari, 2010 Corpora are among the hottest issues in translation studies affecting both pure and applied realms of the discipline. As for pure translation studies, corpora have done their part through contributions to the studies on translational language and translation universals. Yet their recent contribution is within the borders of applied translation studies, i.e. translator training and translation aids. The former is the major focus of the present book. The present book in fact aims at providing readers with comprehensive information about corpora in translation studies in general and corpora in translator education in particular. It further offers researchers and practitioners a comprehensive and up to date survey of studies done on corpora in translator education and provides a rich source of information on pros and cons of using different types of corpora as translation aids in the context of translation classrooms.
